# SOMETHING WILD

We all know of the crazy things that tend to happen at school, but nothing could ever compare to the zany things people do. Whether it be for fun attention or just plain fun. How about our cross-dressed "cheerleaders" doing the Macarena, or how the Homecoming parade was canceled because of the rain. We cannot forget how we came to school the first day without any schedule telling us where to go. That was so confusing! Wait, now here's something insane, our daily announcement crew. It seems to be more confusing reading the detention list than running the camera. We all seem to have those days where we skip school and try not to get caught. Despite the togetherness of the different grades, there is a uniqueness and a distinction between all of them. Each individual grade has their own attitude, style, and craziness, but through it all is something wild.

Stopping for a quick picture while wandering through the halls during class are Tracey Pilgrim, Michelle Cook, Nicole Schmidt, and Barb Rostine. Photo-Rishe

You all know that I am the man, says Justin Whitehead as he wanders through the halls during lunch. Photo-Ailor

Please don't take my picture; I haven't put on my macho look yet, says Jeremy Tice. Photo-Ailor

Demonstrating the wild and crazy things people do are Justin Green and Eric Edgerton . Photo-Cook

It doesn't matter who you ask, the thing everybody likes most about high school is what goes on after 2:42. The teenage years are filled with new responsibilities and new freedoms. Both can be very exciting.

One added aspect experienced during this time is a new job. They teach us important social and speech business skills necessary to function in society. In addition, they provide one of the biggest necessities of student life . . . \$money\$. What is done with the hard-earned money is up to the individual. Some choose to save the money. Others prefer to spend it on clothes, concerts, c.d.'s, etc. . . . It is a large part of a student's life. They take up very little space, but are tolerated by those who love to have one.

A student's life would not be the same without another valuable means of enjoyment, a vehicle. It doesn't matter if this vehicle is white, black, red, or gold. Whether it is a bucket of rust or a brand new set of wheels, it's significance is felt by everyone. The day you can finally drive on your own is a big day. It's on this day that the possibilities of the things they can do are endless. They can take their friends to pick up that big date, or take their friends to the mall. Mom or dad are no longer needed to drive to concerts or sporting events. It's all up to them now! This is one of the grand freedoms that is celebrated by the student. As with all freedoms, driving comes with a responsibility. It is the duty of all students that drive, to drive safely and drive sober.

Many students are involved in sports practice after school. This is a great way to have fun and be social with your schoolmates. Practice gives people a chance to learn teamwork, and just have fun! It is a great stress reliever and an amusing way of staying in shape. It also gives young people a competitive edge. Those who play sports are learning to be demanding of themselves and put their best foot forward in everything they encounter in life.

The high school student is a busy person. It is a tough job to balance everything that they're involved in. Sometimes it seems that there just isn't enough time in a day. That is when the student must take time to do . . . SOMETHING MEMORABLE!

# Something Spirited

## Homecoming 1996

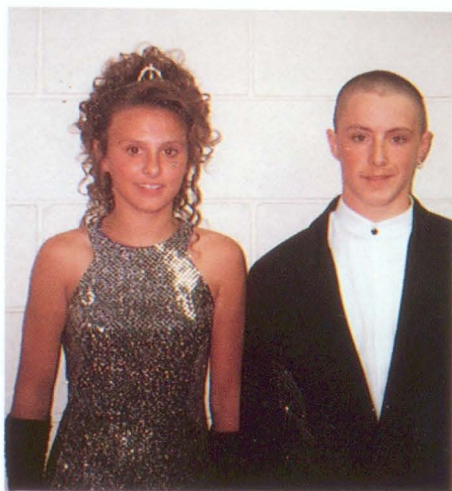

This year's spirit week started off with a blast. On Monday the halls of Capac High School were filled with spirited students. Throughout the week the students were involved with many fun filled activities. On Friday the chiefs gathered in the High School gym to participate in our annual pep assembly.

On Friday

night the chiefs rallied back from a 6-20 half-time score. At the end of the third quarter the chiefs narrowed the gap to 12-20. In the fourth quarter the team did something that they haven't done in a 36 league game streak. At the end the fourth quarter the score was 25-20, the chiefs came out on top. This was a great way to "Start a New Beginning!"

# Something Memorable

## *Life at Capac High*

There are lockers slamming, and the distinct odor of cafeteria food in the air.... Whether it's your first or last day at Capac High, it's definitely something memorable.

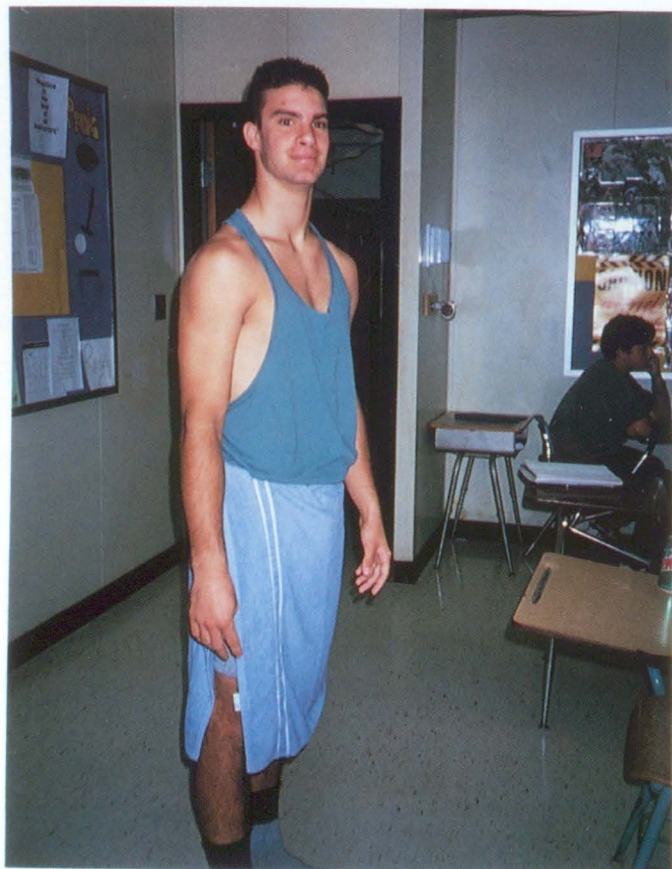

For some of us at Capac, their first memory is buying an "elevator pass" that first fateful day. For most of us however it's much more. It starts the beginning to end memories of classes, sports, and clubs. It's from the time a person falls

asleep in earth science until their senior prom. All the memories of the classes students hated and the electives they loved. The memories of a person's first car, first job, or that first point in the big game, will always be remembered.

Who can forget all those early mornings spent decorating the halls for "Spirit Week" and all the late nights spent on the floats, trying so desperately to capture the spirit jug. We will never forget

screaming and cheering until we lost our voices at good old Capac pep assemblies, or freezing in the bleachers at those late night football games!

Whether you are an eighth grader trying to unlock your locker or a senior on homcoming court, your time here at Capac Junior- Senior High is definitely SOMETHING MEMORABLE!

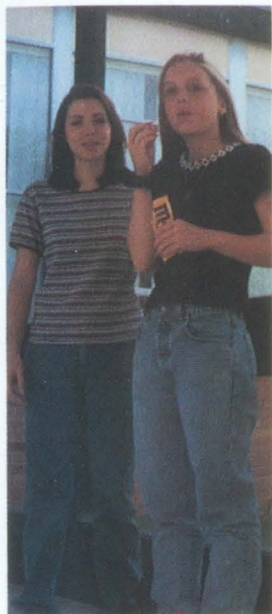

What's the matter Karl Rishe, did you wake up too late to put clothes on, or are you just modeling the new "just out of the shower" look?

# SOMETHING SPECIAL

## Friendships

Friendships are the tight relationships formed between people. Throughout high school, many friendships come and go, but the memories they bring with them last a lifetime.

Friends experience many different emotions together, and sometimes this will bring the friendship closer together, or can cause the friendship to end. Whatever the case, friendships are

very important to the high school years. Friendships build memories that will remain with a person long after we have left the halls of Capac High School.

# SOMETHING

## Enjoyable

From kids running to get to their next class, to people running to the pop machine. A day at Capac High School is something to look forward to. There's always something positive happening or waiting to happen. That's what the students at Capac High School all have in common, they all have a positive attitude towards most things.

The most enjoyable thing for people here is either being with their friends, or the ones they care about. Most all the students want to be with their friends more than going to class everyday, but Students at Capac High School do both with a positive attitude.

What are you staring at asks Eric Edgerton while Angela Berger looks on. Photo Wright

Expressing true friendship is Heather Stanton and Tiffany Craig. Photo Berger

Can you even believe that is has come down to this? Our lives as we know them are about to change forever. There will be no turning back the hands of time. The laughter and love that we have all shared exists now only in memory.

No more will we fight our way through halls, greeting people as we go. We can never again hang out in the lunchroom with our friends. Our class's homecoming royalty have been crowned. It is too much to comprehend. Those who hoped as freshmen to someday be seniors are now elated or disappointed.

Do you remember freshman year? Those of you who were in the grade: Can you still feel the nervousness of that orientation and the first day of a new school? To those who have been together since elementary school: Can you remember what one another looked like back then?

Does anybody recall saying "I can't wait to be a senior!"? Does anybody wish that they hadn't said that??

Has it sunk in that it will be September in four months? This will be the first September in possibly as many as 13 years that we won't be together. You will not be able to look around the cafeteria at orientation and see a Garrett Peters or a Paul Swamba. You won't see James Knox walking around with his pants nearly falling off of him. You won't see Celeste Blumerich growing still taller than most of us. Did Karl Rishe lose his knack for making all of us laugh? Did Audree or Julianne grow yet? These are things we may never know.

You will never again hear the roar of the Class of '97 at a spirit judging contest. Which reminds me . . . YEAH!! We finally won our spirit jug! Five long years of hard work finally paid off. This was the year that we all banded together to produce more spirit and class pride than ever before.

Is anyone else nervous about taking that first big step into the 'Real World'? I know I am! To all those who are nervous like me, the class of 1997 is always right behind you!

We are now freshmen again. That's right Class of '97, we are freshmen in the real world. We are still as nervous, but now we are grown.

A word of advice in these last days before some of us part forever—make sure to say those final goodbyes. You may never get a second chance.

With these words, I must bid a teary farewell. Thanks for the memories. May you all succeed in your lives and may God bless us all.

Never forget . . . we are Something Wild!!

## Homecoming Court 96

This could have been just like every other year, but for the seniors it was their last homecoming pep assembly. Ten students were selected by their fellow classmates. To represent them for the last time.

This years Homecoming Court consisted of Alissa Spiller, Maria Govaere, Christa Hernden, Jen Abel and Amy Palmateer, Matt Hill,

Nick Antonelli, Nathan Creech, Paul Swamba, and Brian Murray.

During half time of the Homecoming game everyone waited anxiously for the big news. The band played as usual. Mr. Cutler announced the Court members and then what everyone was waiting for... the 1996 Homecoming King and Queen were crowned, Nathan Creech and Alissa Spiller!!!!!!

# FINISHING SOMETHING

## A FINAL FAREWELL

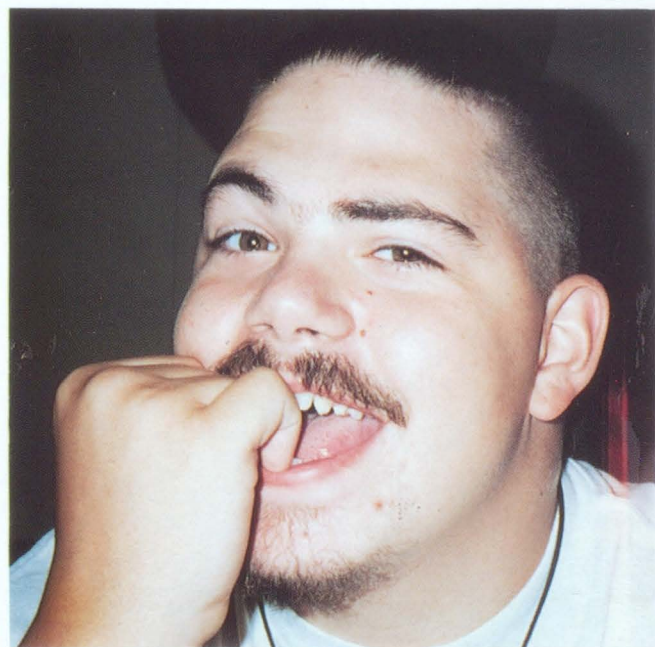

To the class of 1997: We have been together for what seems like forever. We have seen friendships develop, grow, change, and end. We are all so different, so unique, and yet we are the same. The same classes, same teachers, the same hassles that never seemed to end. We have seen each other laugh, cry, fall, and rise. We have seen innocence fade and dreams get shattered and thrown to the floor. We have seen moments of overflowing

joy filled with exploding emotion. Our class is small but we have infinite spirit and pride. We finally won the spirit jug after five years of struggle. To my beloved peers we have come so far, we are almost there: To the end of this thirteen year long chapter in our lives. I wish you all well as you start a new chapter in your lives. Hopefully someday our paths will cross again and we can smile and say: "Do you remember when?"

Amy Palmateer President 1997

Even with a cute smile, we still know Andy is hiding the answers to the Econ. test in his hand. Photo- Cook

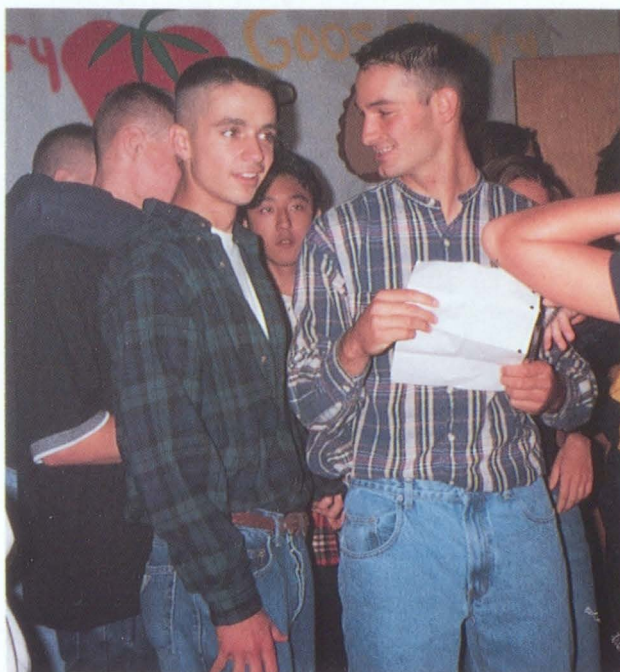

Sitting in the gym during lunch, Nikki, Naoki, and Rose smile for the camera. Photo- Spurgeon

## SOMETHING FOR THE CLASS OF '97

### THE END IS SPOKEN

*"Character is Destiny"*  
-Heraclitus

For so long each of us has helped one another develop such beautiful personalities. From the first day we met, whether it be kindergarten or fourth grade, we have lived as a unit of one in a school of plenty. Our ambitions have changed as we have grown and matured. Each of us holds within ourselves a dream. We have always been judged as a class. Time is finally indicating we must show to the world our character... our ability... our success in what we do. Not as a class, but as an individual. I wish my graduating class

endless joy and satisfaction in any attempt made to succeed and enjoy life.

Rosalie Lulis -Editor

We are all from different walks of life that we know are true we all have had problems that our best friends helped each of us through

we each experienced different things in life and felt different pain yet when you view the big picture, we are very much the same whether you are homecoming queen or not the prettiest by far if you were always last picked or the team's worshipped star whether your spoken words were only a few,

or if you were clown of the class

if you got A's always or struggled just to pass inside we are a lot alike filled with countless hopes and dreams some of us learning the hard way and that things are not often what they seem

if you search in your heart and mind and hold onto what you see you slowly begin to realize that you are not so different from me so as we say our good-byes and cry with our friends

I wish each one of you happiness and luck until we meet again good luck from a fellow classman

What's wrong Matt K., can't find a date for the big dance? Photo—Abel

"Give the baby his bottle!" Jake Spurgeon shows his spirit at the pep assembly. Photo—Nantz

Darci, get your eyes off the guys and pay attention. Photo—Wright

As the crowd goes wild, "CAT" Carl Rishe does the Macarena. Photo—Nantz

“... the world is now at our fingertips.”

The first thing that most of us think of when we hear the word academics, is classes. Academics, though, includes a wide spectrum of other topics. Most important of which are students, faculty, classrooms, and resources. With these combined elements, the world is now at our fingertips.

Students of this school gather here everyday to pursue their education. Doing so in this day and age is much more fun and involved than it was in our parents' day. With businesses demanding workers with good experience, our education system has improved greatly. This means harder work, and more of it for students. In order for students to succeed in today's classrooms, we all need the help of skilled professionals.

The faculty at Capac High are here to guide us down the right academic paths. It is in the classroom that they use their knowledge and ability to prepare us for life in the 21st century. Like them or not, they are the key to the future. Through hard work, discipline, and by acting as mentors, we will walk out of here better individuals because of our faculty.

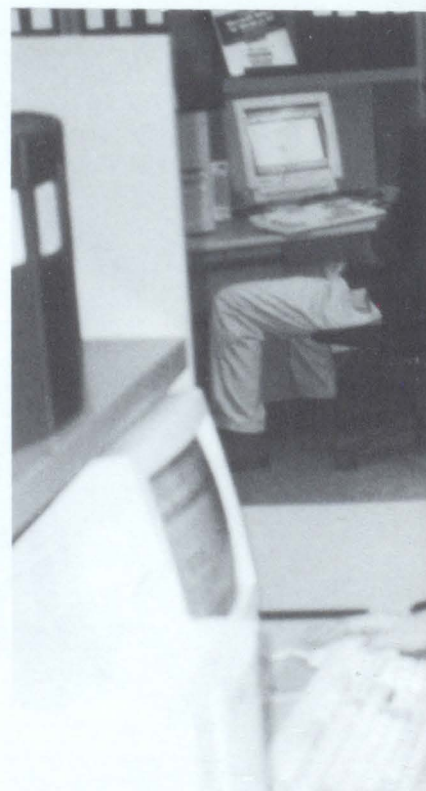

The classrooms we learn in are becoming more and more high tech every year. A few years ago there was not a computer in every room. There were a few in the library and some others scattered around the building. Now we are fortunate enough to have a brand new media center. In the future we may even see television used as a method of teaching in Capac.

As for our resources, they are numerous. We have an opportunity to get on the job technological training in the tech lab and Tech school. A new county library system has been hooked up in our media center. This allows you to find and access any book that is located in St. Clair County. Before, you could barely access the books in Capac. The biggest, and by far the best new resource offered to students is the World Wide Web. Now we can find any information that we want from anywhere on Earth.

Capac is taking big strides forward in this fast paced world. They are making sure that we have the best opportunities we can, by giving us SOMETHING ACADEMIC.

# SOMETHING FOREIGN

Foreign exchange students come to us from all over the world. Each one is their own individual person and has their own unique qualities about them. This year we had five new exchange students who are very fun to be around. We try to show them what America is and how we Americans have fun. This, we hope, will leave a lasting impression on them for the rest of their lives. The exchange students teach us about cultures and people from everywhere around the world. We offer them a year in our community, they provide us with memories that will never be forgotten.

# Something Elected

## Elective Classes

Electives are the classes people take because they are interested in learning about that particular class. Electives help us make it through the day. They help to break up the monotony of the day. They also help us find

things we are interested in. You might find you like accounting so much you decide you would like to become an accountant after you graduate. Without electives, how would we make it through the day?

Wake up Erich, French is almost over. Photo—Abel

Here we catch Darci Robinson in rare form, deep in thought. Photo—Rostine

# SOMETHING BENEFICIAL

The students of today's math and business classes are the future accountants, computer programmers, engineers, and business administrators. The classes are challenging and the things learned can be beneficial. Math plays a major role in about everything we do and what we will do in the future. The importance of mathematics is greatly needed in the work place. Computers seem to be everywhere in this high tech world everyone needs to add, subtract,

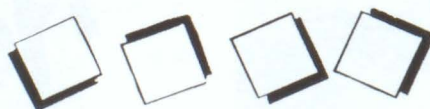

multiply, and divide. To do daily activities such as buying something or balancing a check book. To many students, these strategies don't come naturally. Some teachers are trying new and different ways in order to get students involved. By making math something fun to learn, students get more interested in the subject, whether it's math or English. To all the hard working students, keep up the good work and the things learned will take you far.

Amanda Dobbyn takes a quick glance behind her to make sure she's doing the assignment correctly. Photo—Berger

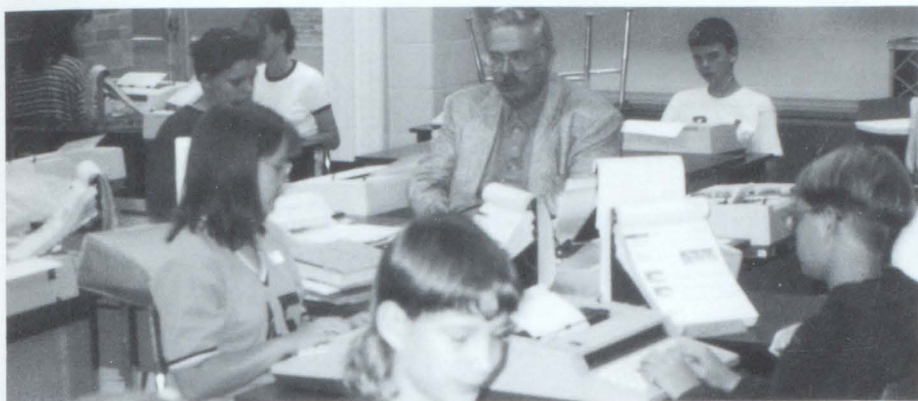

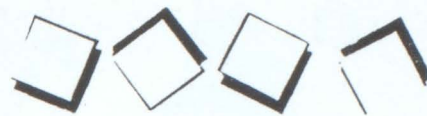

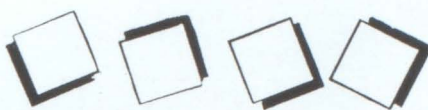

Taking a minute out of his busy schedule is Matt Murray. Photo—Berger

## SOMETHING ESSENTIAL

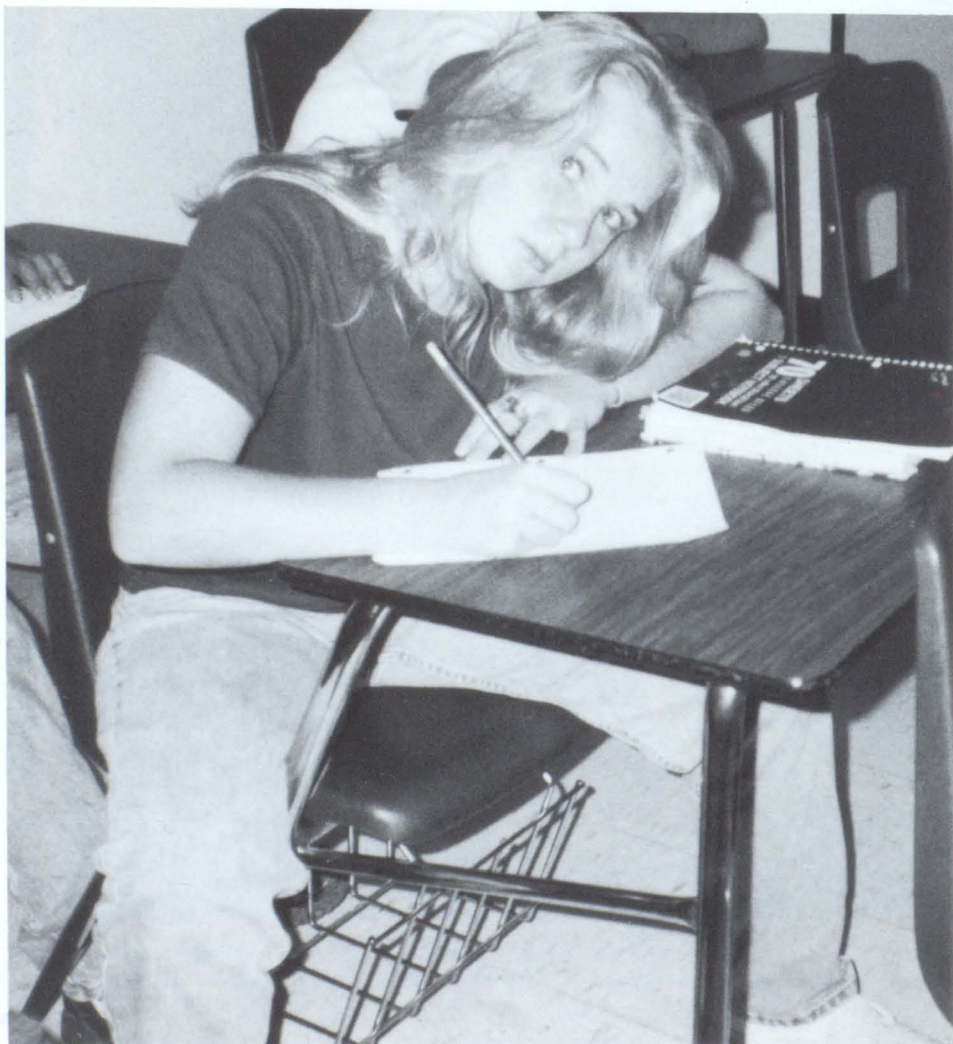

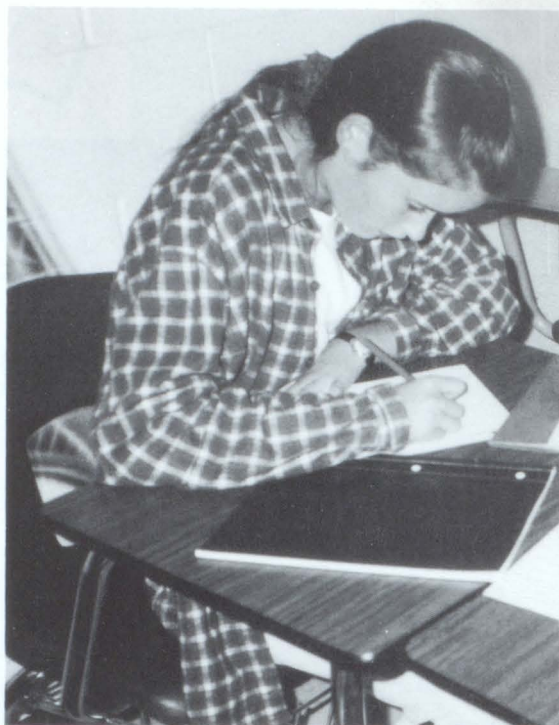

Not everyone likes going to school, or all of the classes that it has in store for us. Hey, that's what school is for. If you want to get somewhere in life you must have some sort of idea of what you want to do. We might complain but they're only here for one reason, and that's to help us with our education. If you want to do something after high school, or after you get out of college, of your choice, you must have a good education. It won't hurt to have the basics under your belt, like Math, Science, and English. Classes can only help you, they might make you ache a little, but in the end you always end up on top.

Are you doing homework Dana Potter or are you just a good actress? Photo—Nantz

Writing down the answers for the next test is Christina Williams. Photo—Nantz

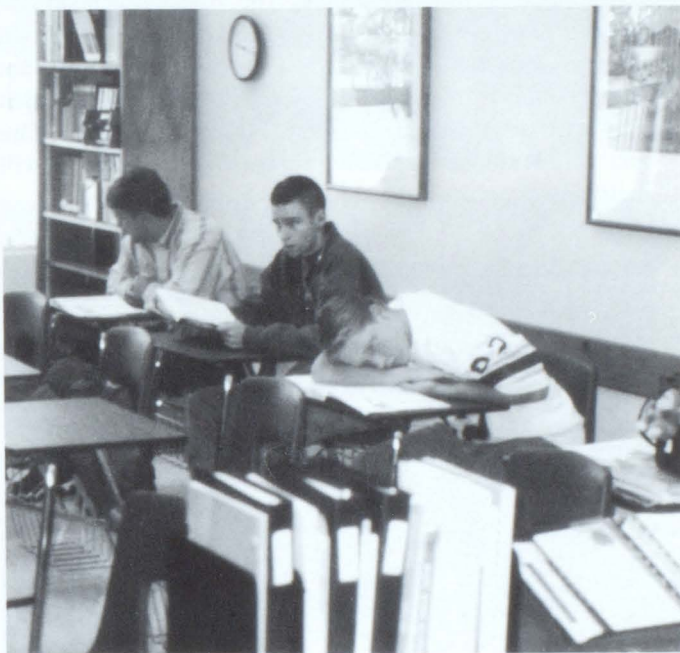

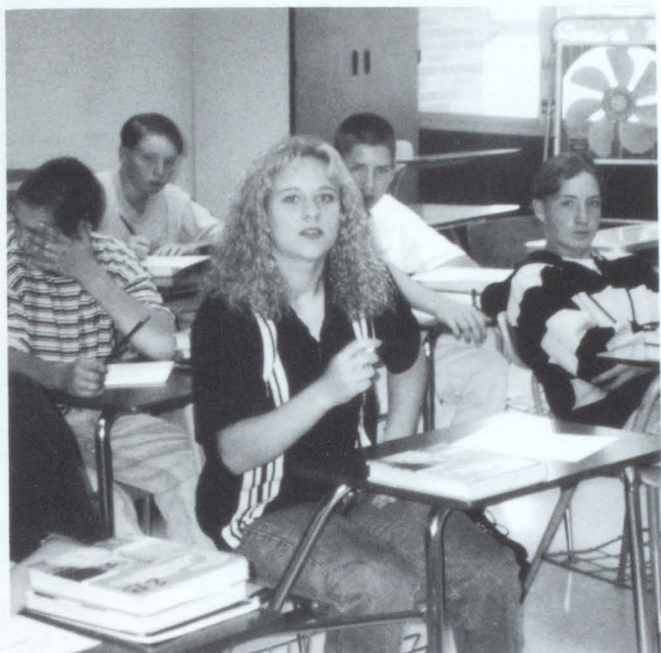

Showing off the masculinity in him is Johannes Schneider. Photo—Rostine

Thinking she's all that is Carrissa Detroyer. Photo—Ailor

Learning to the best of his ability is John Grybz. Photo—Ailor

Taking time out from learning are Amber Ellis, and Mellisa Kellum. Photo—Ailor

As the entire class reads their science homework, April Pelton takes time to smile for the camera. Photo—Abel

## SOMETHING EXPLOSIVE

### SCIENCE CLASSES

To some, Science classes may be thought of as a group of individuals standing in front of a lab wearing goggles. This accusation is false. The science students are individuals that are interested in physics, chemistry, and biology.

In past years, Mr. Young and Mr. Hunt have taken their classes on several field trips.

They have taken the students to such places like the Detroit Science Center. This hands on approach is very beneficial to the students.

The students that are involved in Capac High School's science program have gained knowledge that will last a lifetime. The things they have learned will help them in years ahead.

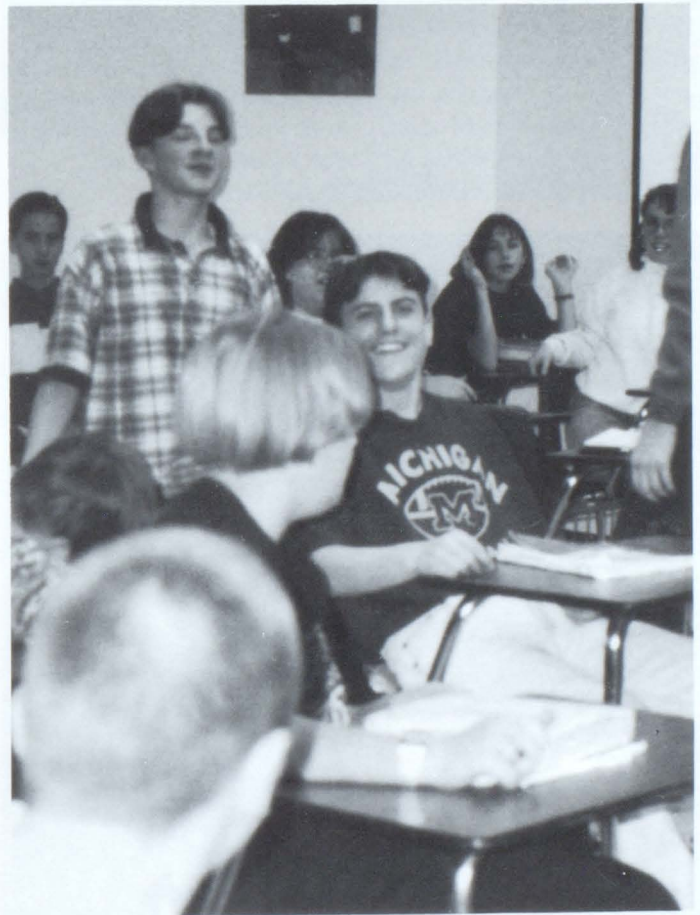

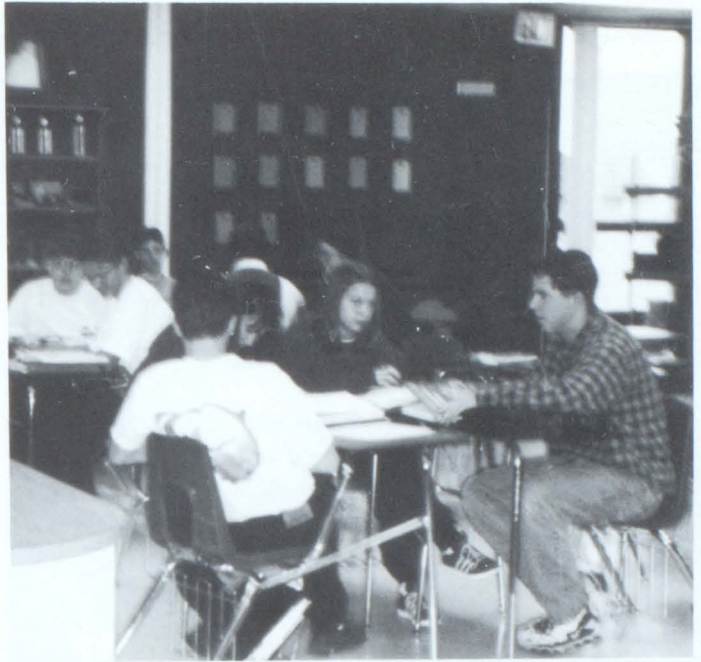

By the expression on her face, Brandy Wilcox show how much she likes science. Photo—Abel

What's wrong Melissa Kellum, is your science homework getting too hard to handle? Photo—Abel

Mr. Standerfer's science class learns how to work in groups. Photo—Abel

Matt Dodd takes a time to smile for the camera while doing his homework. Photo—Abel

Stephani Stachowski reads silently her science homework. Photo—Abel

## **SOMETHING TECHNICAL**

Have you ever wondered where you are going to be in the future, or what career you are going to pursue? Well, the students that attend TEC have already begun. From Business to Cosmetology the students are preparing to enter the work field.

TEC is an opportunity to experience what a career will entail, and tries to place the students in job with related tasks in that field. Co-op is also an option through TEC. Once a

person has fulfilled all the required hours of training, they might be sent to a place to actually work. After all this is completed, St. Clair County will then endorse you. This could then lead to a very high paying job, even if college is not in the picture. All these things show what TEC can offer. However, a person has to really put their mind to their work to get something beneficial out of this program.

# Something In Order

## Making A Difference

Arriving at the Capac High School Media Center at 7:00 p.m. are the hard-working, decision making members of the school board administration. As the members file in, they are seated and the meeting comes to order. Some of us have attended here for five years and have never thought twice about who or even what the school board administration is. How things happen and why they happen during the school year and even during our summer vacation is all part of the doings of the school board administration. New teachers we see, different prices in our lunches, new

classes added or old ones dropped are all part of the decisions made during a school board meeting. School board members are a very important part of the school system, things would not get done very easily without them. Who are these school board members you might ask? The President is Dale Stuever, Vice President is Diana Nelson, Secretary is Jimmy Dodd, Treasurer is Virginia Schaefer, Trustees are as follows: Dave Greenia, Marie Killinbeck, and William Ellis.

The School Board Members pause from the busy work at hand in order to pose for the camera.

Photo—Cook

Suzanne Hoffman, Kathy Downey, and Mike Lilla pause from the numbers for a smile. Photo—Cook

Trying to help us out during the day is Mark, this years new janitor! Photo—Abel

## Something Helpful Special Services

Helping us through our day are the special services. Which consists of janitors, cooks, and some students. Even when we do things to get them mad, they still come back every day to help.

Without special services, students would have no lunch and the floor would be full of trash. They are here to try to keep our school clean, but is very hard. Some of the students just don't care, and they just throw things everywhere. These special people are persistent and keep things running smoothly.

It is harder than you think to cook for all the students and staff and try to make sure the high school is clean. So try to be nicer to these people, they are just there to help.

## MEANS OF TRANSPORTATION

Screaming kids and spit wads are just a few things Bus Drivers have to put up with every day of the week. Bus Drivers have many responsibilities, every child on that bus is treated as their own. There are around 1,150 students that take the bus every morning and afternoon. The supervisor for this

whole bus system is Mr. Ogden. There is one mechanic and twenty-five bus drivers working hard to help our school out. What makes the job of a Bus Driver so hard is the rude manners of many students. So next time you're on the bus appreciate the hard work of your bus driver.

Waiting patiently for school to dismiss is bus driver Mrs. Jones. Photo—Rostine

Showing their spirit by standing out in the freezing cold are the dedicated bus drivers. Photo—Schmidt

# SOMETHING PROFESSIONAL

**A LITTLE NEW, A LITTLE PROUD AND A LOT OF FUN!**

A new organization was added to Capac High School this year and 67 of you decided to try it out. BPA, Business Professionals of America, was quite a hit in Capac. It's about determination and dedication, it's about knowledge and your future, but, it's also about having fun.

BPA is a fun, energetic and learning experience. Mrs. Parker-Moore, the advisor, exclaims, "I am very proud of their accomplishments, they did a great job representing Capac High. The other advisors were very complimentary towards the way they did for their first year."

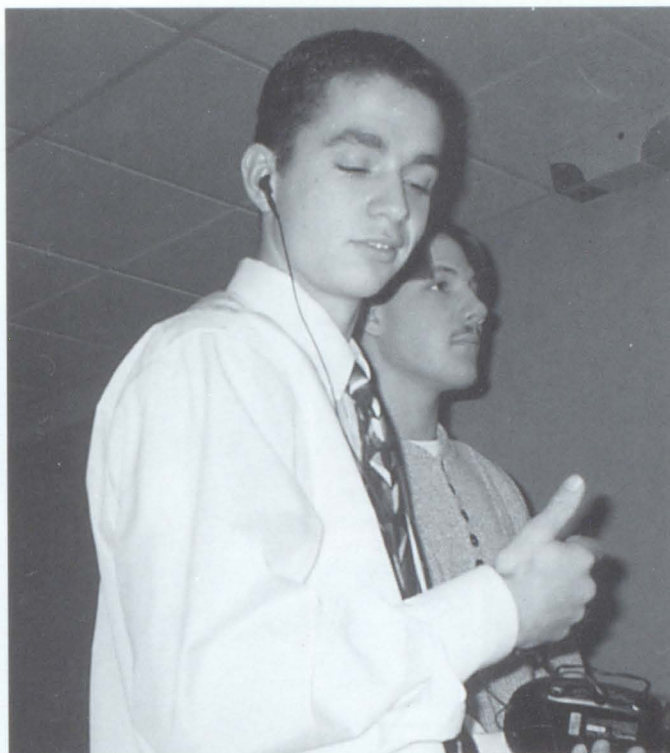

On her way to test, Julie Morency stops and takes a break. Photo—Schmidt

# SOMETHING DEDICATED

It's been an incredible year for you; you've met new friends, played on some sports teams, joined a club, and finally got that big date!! With everything going on in school, it's sometimes easy to forget the real reason you're here, to get the best education possible. Who's out there making sure you pass your classes and get that job you always wanted . . . your teacher. Who's out there making sure you stay on that right

path and acquire the skills for college . . . your teacher. Without the dedicated staff at Capac High School, none of the everyday events you experience would be possible. It may not always seem like it, but the teachers always have your best interests in mind. They may try to prevent you from being **Something Wild**, but they will always make sure you're **Something Special**.

"It is a world of unexplored, full of unknowns."

To new students, the high school is a formidable barrier between them and adulthood. It is here where they will struggle with themselves and others to become their own true selves. It is a world unexplored, full of unknowns.

As eighth graders, people have to learn the ins and outs.

"What time is lunch?", "How many minutes are there between classes?". You would think that somebody would make a list of answers to all of these questions! Since they don't, we must rely on our peers. Only our peers can help us figure out these new questions. The first weeks of school are ones of bonding. New friends are made in the process of finding out just how things really work in this place.

There is lots of apprehension for young students as they venture into the high school. Fear of being pushed around by the older kids is common. Fear not undergrads. You will find your place here. It is not as bad as one might think it will be. It may be rough at first adjusting, but as time goes by you won't want to trade it in for the world.

As undergrads, students can now explore all of the new electives. All are designed to enhance your mind. They can also help you to develop into whatever it is that you may desire to be. Considering a job in construction? Then Mechanical Drawing is for you. Like to go into engineering? Then check out physics and chemistry. Interested in how the world turns?, try the science department. Plant or animal science, Bio I and Bio II are all wonderful courses. Now is your chance to "parle francais" or to "habla Espanol". As an undergrad, you are free to decide. Anywhere you want to go in life, high school can take you there. It is here through these and other courses that you learn hard work and independence. So challenge yourself!

You are only an undergrad for three years, unless . . . no, you'll all pass. So make the best of the times. You hold the key, only you can make these years SOMETHING UNFORGETTABLE!

A new year, a new name, new people, and a chance to begin again. This is what the new Crossroads Alternative is all about. Here kids have the chance to get more one to one interaction with the teacher as well as smaller classes to learn in. Sometimes it is harder for some people to fit in, so here they have just that chance. They are given a wide variety of classes to choose from as well as individual help if it is needed. This is not for everybody; however, the school is growing. With more kids and a new chance to make a name for the school, it gives itself its' own uniqueness to be something different.

# SOMETHING CRAZY

## CLASS OF 1998

Our junior class at Capac . . . Something crazy! Whatever your niche, whether sports, academics, clubs, or student government, our junior class is definitely one of a kind. We have one more year to go. Whatever future we choose, whether it is college or the work force, now is the time to prepare. Taking the proficiency tests, waiting for the results, and hoping we passed is all part of your junior year.

It's hard to believe we've been in school for eleven years. Remember back to elementary school when it seemed like an eternity until recess, and now look how time has gone by. From the memorable events such as last year's trip to the zoo, to this year's required classes, we all love english, we are all juniors and we're all in this together. We're the class of nineteen ninety eight and we're something crazy.

Despite some terrible trends—like pinch rolling our jeans and side spiking our hair—we've all done some improving since by.

Remember those embarrassing moments? Re-rassing moments? Re-obsessed with our first member who we chased around the playground, first day of high school, crush. We can't forget our wonderful, it's definitely memorable.

There have been some major changes in all of us over the years, growing and maturing into individuals and from there forming the crazy, chaotic class of nineteen ninety eight!

Whether we just moved here or we've been Capacians all our lives we've all shared some memories—memories of the football games and the cold bleachers, of winning the homecoming game and going to the dance afterwards. We'll never forget working all those nights on the floats, trying to think of themes that would capture the spirit jug. We can't forget all those euchure games! For some the memories took a more academic turn. Clubs such as quiz bowl, FFA, and Future Problem Solving, add an academic twist for those in need of a less physical challenge. The best memories are still to come. We have so much to look forward to. We have our senior prom, a night to remember. We have graduation, grabbing our diploma and throwing our caps high, proud to have made it all these years.

Our junior year has been one to remember and our junior class is one that will never be forgotten. One more year and we're out the door!

"We've got one more year so live it up."

# SOPHOMORES

## SOMETHING IN THE MIDDLE

When the bell rings in the morning you hear lockers slamming, people yawning as the dawn of a new day approaches. For the Sophomores it's another day wishing it was another place. Being a sophomore means being in the middle of your high school years. In the upcoming years we have yet to experience and discover many things like our junior and senior prom. However, that is just one of the good points of being a sophomore. We are closer to graduation. Most of us are, or will be 16. And we all know what that means . . . more freedom and more time away from home. For many sophomores a drivers license is the best part of their 10th grade year. Many will use their new found freedom to a

job and save money for college or for a better car. And others will choose to spend their money on other things like clothes and cd's. There is also some who have to turn their checks over to their parents for car insurance and other car maintenance costs. In the long run it all seems worth it when you can go out with your friends without having to be dropped off or picked up by your parents. But we need to remember that a lot of maturity and trust comes with having a car. As a sophomore we need to start planning for our futures, which means making decisions on our own. Will it be college, the service or a job right after school? Sophomores as we make these important decisions and enter the adult world we need to remember all of the mistakes and experiences we've gone through to help us make the right choices. I know we'll make it because we're the class of "99". After all, we are the beholders of the spirit award and jug!

# Something Crazy

## Freshmen Class

The first day of a freshman's high school career can be very difficult. It requires the first real interaction with the high school, the chance of being in second lunch with the senior class, and the entire staff treating you like an adult. Yet the class of 2000 had very few problems adjusting to the fast pace life of being an high schooler. This is the year for the freshman to join sports at a high school level. With many choices to make between basketball, cheerleading, track, and many more they must find their niche.

From Mr. Glennie's gym class to Mr. Ebner's civics class the class of 2000 has had to face many new challenges. As a Freshman it can be difficult because you are still considered a "baby" but are still not a sophomore, you are definitely not an eighth grader. As the class starts to accept gives the freshman a sense of belonging.

Having their futures seems to be going at a very fast pace. Getting older, dating, driving a car, and your first prom. These are all stages in adulthood. And this can be a scary journey. The problems that accompany them all lie ahead of this class. I am sure that this year's class will handle the pressure the same that every other class has.

"I feel honored to be part of the first class to graduate in the 21st century," said Amber Ellis.

This year for Homecoming this class gave the entire student body a run for the spirit jug. The float that represented this class was Spider Man. The royal representatives were Prince Justin Gressel and Princess Brenda Camire. This is not only a honor it's also nerve racking to walk through the gym with the entire student body anxiously awaiting.

Slowly, as the year comes to an end the memories of the freshman year still linger. At the year's end, their lockers are cleaned out, books are returned, and report cards are handed out. The freshmen fondly recall this year and eagerly await the upcoming year as a sophomore.

# Something New Eighth Grade

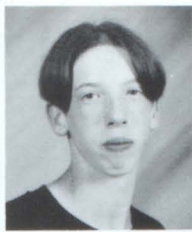

The first year in high school is a journey never forgotten. The class of 2001 will experience many changes throughout their high school career. They will experience a new environment, along with a new building, new classes, and new teachers. They go from ruling the middle school, to being the ones the upperclass students always pick on. Does anyone want to buy an elevator pass? The outlook is bright though, the eighth grader now has the privilege of being involved in many different high

school activities. The class of 2001 has the opportunity to elect class officers, choose an elective class, but most exciting of all, homecoming. The eighth grade chose Eric Pal-mateer and Stephanie Voelker to represent them as prince and princess of their class. The class of 2001 can also take pride in their spectacular football team. The eighth grade football team has brought pride to the chief's name, by ending their season totally undefeated. Way to go guys!

The journey through

high school isn't all fun and games though. The classes begin to get harder, and the pressure is on to get good grades and excel in your classes. Along with the harder classes comes more responsibility, and believe it or not, it's time to start thinking about your future, life after graduation. Don't get too nervous, just take your time and enjoy high school years. Believe me, time flies and before you know it you will be walking down the graduation aisle.

One of the most important things that you could ever do in high school is to join an organization. Whatever your interests may be, there has got to be a group for you. Here are just a few of the many organizations that Capac has to offer.

If you are one who believes that the environment should be a number one priority, then maybe you should consider becoming a member of S. A. V. E. . This organization is involved in distributing and collecting recycling boxes. They then ship the paper to a recycling center. Officers of this organization are Becky Bufton, Krystal Mason, Tracy Pilgrim, and Celeste Blumrich.

If you think that it is important to educate students and parents about the affects of alcohol, then you may want to join S.A.D.D.. They stand behind the promise to never drive after they have been drinking. They also agree to never let a friend drive drunk either. Officers of this organization are as follows: Jen Abel, Becky Bufton, Tracy Pilgrim, and Andrea Sarrach.

Quiz Bowl might be your organization is you like to be challenged. It's just like Jeopardy, except for the fact that Mr. Cutler is the host instead of Alex Trebek. Quiz Bowl member Ron Heilig says of Quiz Bowl:

**"I suppose I like Quiz Bowl because I have always been a lover of tough compition."**

For the students that have a love of agriculture, team work and giving, then FFA is the group for you. This is not what you may think it is. These people aren't the pig raisin', Chickin' pluckin' folks you may think they are. They are involved in toy drives, march of dimes, and leadership contests.

**"FFA . . . An opportunity, a chance to succeed, a bridge to the future."**

**Jen Czyzewski  
FFA President**

So get involved, try *Something Organized!*

# Something Tootin' BAND

Being a part of the band gives you a chance to do and see things you ordinarily wouldn't. It's an opportunity to meet people, and have fun. the band not only shows their band enthusiasm through their music, but also in the support they give the cheerleaders and athletes during football season. They were able to get the crowd rowdy at just the right time, and keep the spirit going with the traditional "Capac Fight Song". Once a year the band participates in a band festival known as State Solo Ensemble. They compete against other schools and are rated and judged. Capac Band always does well. They are a group of talented and spirited musicians. Finishing his last year with the Capac Band is Ron Heilig. He has given a lot to this band, and his contributions won't be forgotten.

Look at the band go, as they play Low Rider. Photo—Nantz

Ron, pay attention to class, and quit staring at Lacie. Photo—Nantz

# Something Governing

## Working together to help others.

Student council plays a very active role in school activities and helping out around the community. This year's student council participated in a food and clothing drive and also had a fundraiser for cystic fibrosis. Without a student council, many events we count on, like Homecoming and Snowcoming wouldn't be possible. Student council officers this year were, President—Matt Keskamaki, Vice-President—Mark Remenap, Recording Secretary—Katie Lewis, Corresponding Secretary—Tracey Pilgrim, Treasurer—Becky Bufton, and Advisor—Mr. Cutler.

# SOMETHING LEADING

## THE FUTURE LEADERS OF TOMORROW

FFA is a national organization made up of students interested in some aspects of agriculture. Not only does it teach agricultural skills, but it helps to develop leadership skills as well.

A great majority of the members are freshmen and sophomores since recruitment is focused on students that are just starting high school.

Every year a selected number of FFA members, usually the officers, journey to Kansas City, Missouri—the site of the annual National FFA

Convention.

FFA is an organization that accomplishes a lot. Participating in activities such as: Leadership contests, Poultry Improvement, Land Judging, State and National conventions, Leadership Lock-ins, March of Dimes Walk-a-thon, Food For America and much, much more.

One of the best things this group has to offer is variety. Whether its presenting a speech or studying plants; there is something for everyone in FFA.

Taking a ride in the big John Deere is Mr. Standerfer. Photo—

Berger

All smiles, these junior officers really know what leadership is. Photo—Berger

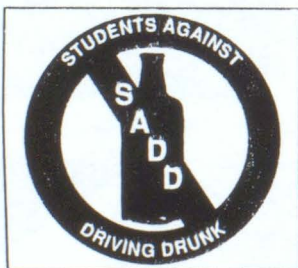

# Something Responsible

## Responsibility is the Key

Making a difference for the school is what they enjoy. Sadd is an organization for people who enjoy helping out the school and the community. Mrs. Bourque is the advisor for Sadd, she said she really enjoys working with the kids, and the kids enjoy working with her. Jenn Able said that people should join Sadd, it's a really good experience for them, as well as others. Sadd members know they really make a difference within the community.

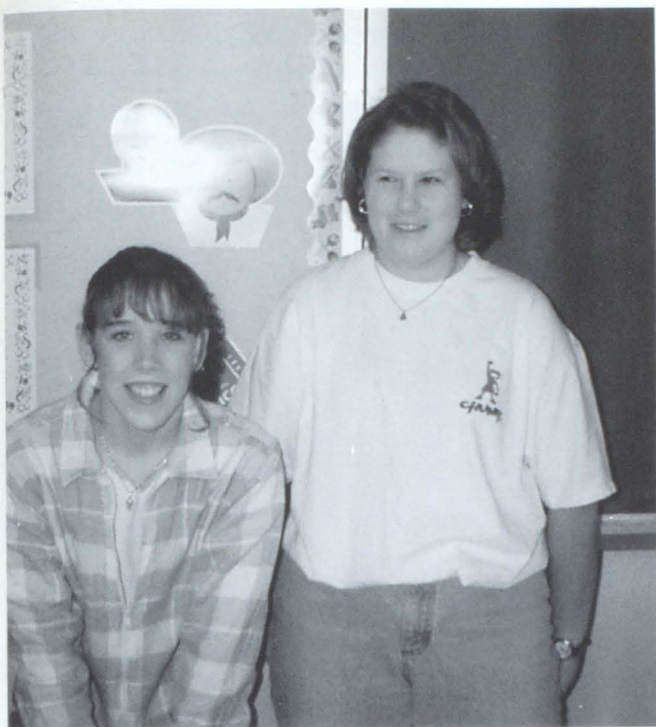

Pictured from L to R are Jen Abel, Becky Bufton, Tracy Pilgrim and Andrea Sarrach. These are this year's Sadd officers. Photo—Spurgeon

### The SADD Pledge

- 1. I will not drink and drive.*
- 2. I will not ride with someone who has been drinking.*
- 3. I will encourage my friends to do the same.*

# Something Recyclable

*S.A.V.E.*

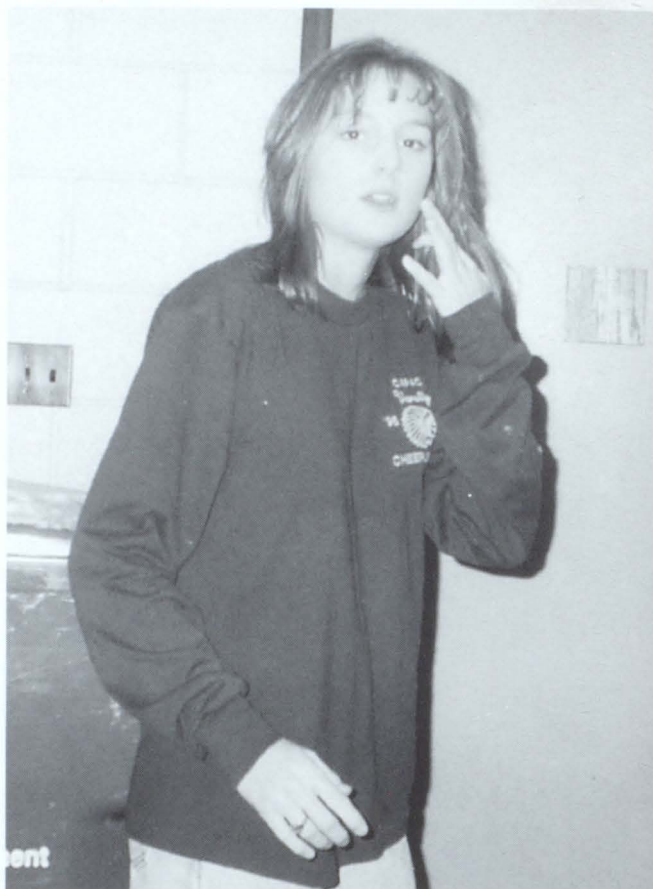

The main goal of this year's S.A.V.E. Group is to save our environment. Students Against Violating the Environment is a unique group which conducts activities that only benefit the earth. They have a paper pick up every Thursday, they crush boxes at lunch, they also picked up garbage on the side of the expressway this October. They have expanded this year to over 30 members. This year's sponsor is Mrs. Walker. She has done a wonderful job to keep them organized. She helps Becky Bufton get the hang of being a first time president. She also helps the first time S.A.V.E. students get the hang of the ropes. This group of young adults is paving the way for our future. We should all follow their example and lend a helping hand, every little bit counts.

This year's S.A.V.E. advisor Mrs. Walker tries not to smile for the camera.

# Something Organizational

## Keeping Us Together

One of the most influential organizations offered here at Capac High is the Four County Foundation. Most students have either never heard of it or don't know what it is. The Four County Foundation Youth Advisory Committee is composed of students and teachers from the surrounding schools. This organization consists of students from Almont, Armada, Capac, Dryden, Imlay City, and Romeo.

Their main purpose is being in charge of giving out scholarships and awarding grants but, they also work hard getting the six schools involved together for activities. This year there are eight members, consisting of: Amanda Watteny, Jill Wallace, Tracey Nettnay, Gina Ballarini, Julie Morency, Sarah Lentz, Tiffany Ellis, and Jeff VanWormer.

The members of Four County from back to front: Jeff VanWormer, Gina Ballarini, Tracey Nettnay, Jill Wallace, Julie Morency, Sarah Lentz and Tiffany Ellis.

# SOMETHING BUBBLING

## MAKING A CREATION

Just hearing the name "Science Club" does not exactly bring excitement to your years does it? Well maybe it doesn't sound too exciting, but there is a whole lot more to it than most of us know.

Whether you enjoy dissecting, conducting experiments or challenging yourself with complicated equations, anyone can be a part of the Science Club. All you have to do is take part in any of the advanced science classes . . . Chemistry, Biology 2 and Physics.

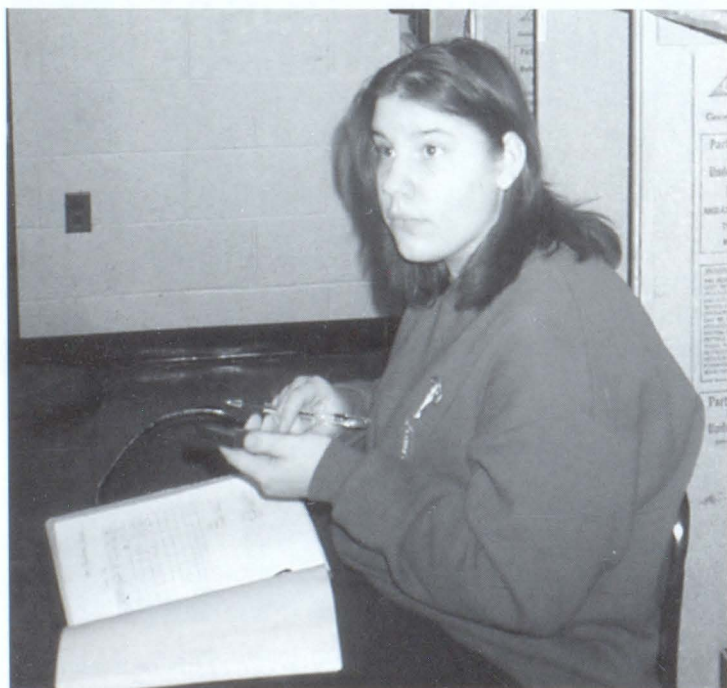

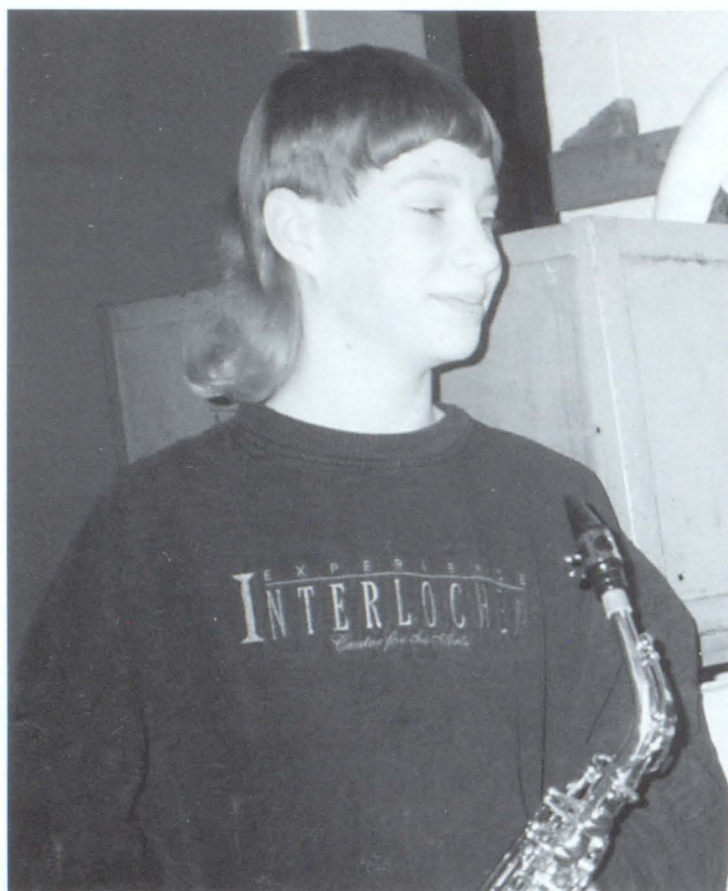

Pupils in Chemistry study the composition and properties of substances, including experiments that might bubble, smoke or do something that you don't expect. Biology 2 students continue to dissect and study what creatures are made of. Brave Physics students rack their brains to explain their relationship between matter and energy.

You can easily be a member. It's a great way to learn inside and outside the classroom.

Thinking they're the best Stephanie Voelker and Laura Lentz! photo—Nantz

"What is wrong with them." said Todd Treece! photo—Nantz

Taking a break from her hard work is Kristen Trombley! photo—Nantz

# SOMETHING JAZZY

## JAZZ BAND

During our high school years we are given the opportunity to take a variety of classes, join organizations, and participate in sports. Some of us will take advantage of this chance and others won't. The ones who do will someday realize the impact it had on their lives. The memories they are making will last forever.

The Jazz Band works hard everyday to get ready for the days to come. This is not just like any other class. They come in everyday after school to practice. They work just as hard as all the other students who are in sports. Let's salute these talented performers.

Danielle Armstrong looks around to see who is watching her! photo—Nantz

# Something to Bzzz about

1, 2, 3, 4, 5, 6, . . . bzz

If you want to show others how much you know, Quiz Bowl may be for you. At a match, four players from each team compete. A match begins with a toss-up question. A player "buzzes in," like on Jeopardy, to answer. If the player is correct, the team then gets a bonus question in which all the players can converse to come up with a final answer. Substitutions are allowed and a match lasts forty minutes.

The Capac Quiz Bowl team started practicing in November, with the first of about twenty-two matches beginning in January. The team competes against St. Clair County schools.

Capac's quiz bowl coach again this year is Mr. Chris Cutler.

If you like trivia, working with others to win, learning new things, and just having fun, then quiz bowl is the thing for you.

This is what the real quiz bowl team is all about from Mr. Cutler smiling pretty to Ron Heilig, Lacie Kaiser, Bridget Paluch, and Stephanie Brunelle making faces. Photo—Rostine

????????

Waiting for the second she knows the answer to buzz in is Bridget Paluch. Photo—Rostine

# Un poco Espanol

## El Club del Espanol

I love Spanish Club this much, says Becky Berlinger. Photo-Pykosz

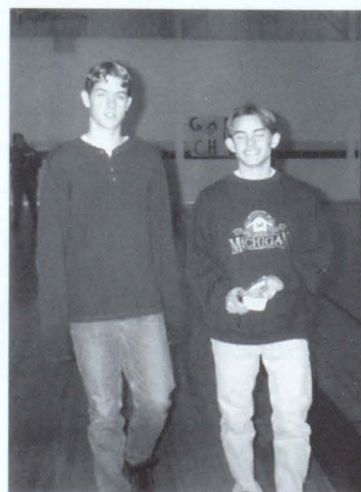

Walking into a Spanish Club meeting is Laura Czewski. Photo- Pykosz

"How do you like my sombrero?", asks Spanish Club member, Leah Burns. Photo-Pykosz

Spanish club consists of past and present members of Senora Walker's Spanish classes. This year it has over forty members. "We've got a lot of new people this year. I'm happy at the rate our group is growing," said president Tracey Pilgrim. They started off the year by going to see The Spanish Nutcracker. "The play was really funny and we learned a lot about the Spanish culture," said Christine Quandt, Spanish club member. Spanish club sold candy as a fundraiser just before Christmas. The fundraiser helped to pay for Spanish club T-shirts. El Club del Espanol ... a hint of something Spanish.

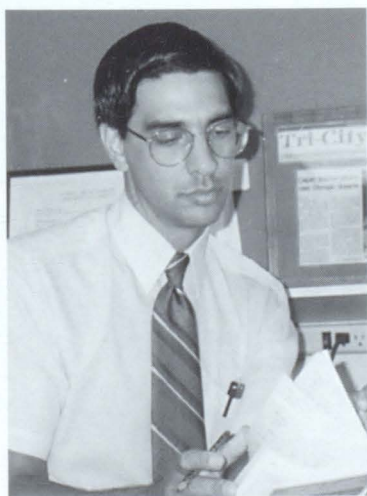

"Yeah, we're bad, and we're in Spanish Club," exclaims Pepe and Alonso. Photo-Pykosz

# QUELQUE CHOSE FRANCAIS

French Club members: Rick Dubay, Rich Rowe, Matt Murray, Ray Cagle, Kim Rummier, Tom bel, Jeremy Tice, Chris Jagelewski, Dave Kolaczynski, Rachel Kozak, Nicole McMahon, Jill Wallace, Vanessa Day, Gayle Chupa, Toni

Cheer up, Mr. Cutler, French is supposed to be fun . . . remember. photo—Spurgeon

## French is a great experience

For those students who have not ever taken a foreign language, a French class might be for you.

One aspect of this elective makes it different than most classes. Every semester, the monsieur (Mr. Cutler) prepares a meal consisting of French cuisine. Be it french bread or peanut butter chicken (a French-African dish), Mr. Cutler prepares everything himself.

So, if you're looking for a cultural experience, or something to fill an empty space in your schedule, think *Quelque chose Francais!*

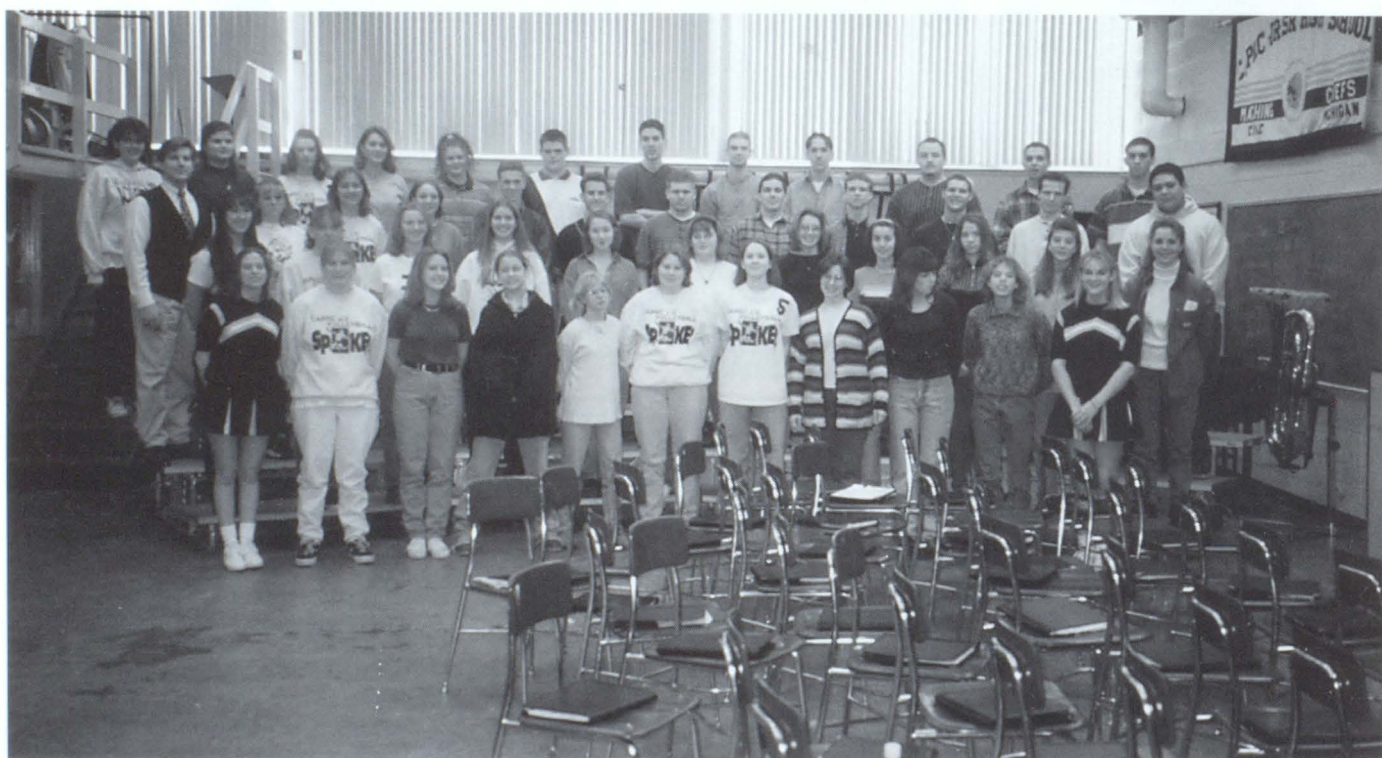

Trois amies, Amanda Dobbyn, Madeline Lowell, and Danielle Armstrong. photo—Spurgeon

# Something Vocal

## What's all that noise

Voice's singing, people laughing, teachers teaching. That's what you would find when you look in the choir room during rehearsal. I talked to some of the kids in choir and they had nothing but good things to say. They really enjoyed class and are learning a lot of things they didn't know before. You don't have to have a great voice to get into choir, just look at some of the people in there. Like Carl Rishe, he commented that it's easy. There was a lot of hard work put into this year's choir program, says Megan Gerlach. If you're looking to hear some good music, come hear the choir.

First row—D. Hoelscher, B. Kokska, J. Siezewski, J. Behrick, J. Janicki, K. Dotson, A. Watteny, G. Chupa, J. Wallace, A. Dixon, A. Burns. Second row—C. Zink, K. Lewis, T. Nettay, B. Wilcox, S. Skuratuwicz, A. Hibbert, J. Spiller, M. Gerlach, K. Rummler, B. Thomas, S. Hayes. Third row—Mr. Schoenherr, G. Schocke, T. Hummel, A. Burke, N. Musselmann, J. Lewis, D. Kolaczynski, T. Abel, J. Tice, D. Mueller, M. Ramirez. Fourth row—A. Palmateer, K. Kiss, N. Meikle, B. Parton, H. Petrowski, B. Craig, J. Croxon, C. Rishe, A. Watteny, B. Folliard, P. Swamba, M. Murray.

Here are some members of this year's National Honor Society. Photo—Jake

Hey Mark, quit blowing kisses at the camera and turn around. Photo—Abel

Look at Christa go, trying to give directions to the NHS meeting. Photo—Abel

## SOMETHING BRILLIANT

### NHS

“NHS” Everyone is so proud to be a part of the excellent organization. So said NHS president Tracy Pilgrim at the National Honors Society Induction Ceremony. Those inducted this year were: Juniors Tim Frostik, Matt Godderris, Julie Merencey, Felicia Powers, Kristi Pykosz, and Jen Young. Seniors inducted were: Audree Charbeanu, Philp Delisi, Christa Hernden, Andrea Sarrach, and Jake Spurgeon. According to Christa it was, “The happiest moment of her life.”

For instance, the NHS offers Tutoring after school or during homeroom. Tutoring is not the only thing NHS does: They provide guides at parent/teacher conference, and sell tickets at basketball games. Of course, lets not forget the acclaimed part of the National Honor Society—DONUTS!!

Brian thinks that he is all cool, because he is in NHS. Photo—Wright

Amy and Julie show their excitement when they found out that they were both in NHS. Photo—Nantz

# Something Chaotic

Deadline February 20, 1997: Mission Complete

Deadlines, deadlines, deadlines ... the yearbook students can identify. This past school year was a rough one on the thirteen staff members. Their class camera broke which led to awful, unclear photos. The students photographed with 35mm cameras with no adjustable lenses which was a disaster. Roll after roll of film was ruined due to shots too far away. This year the students had five members from last year which helped dramatically. Deadlines rolled by quick yet smooth. It really is a tough job fitting

in a whole year of high school on a hundred and some odd pages in just six short months. Mr. Brennan, second year advisor, said he was ecstatic when the last layout was edited and turned in. The "yearbookers" said they could identify with his feelings, and were glad that they no longer had a lingering stress on them. "I really enjoyed making the yearbook this past school year," said Jen Abel, "and I wish all the students would have the opportunity to work under pressure and meet deadlines."

Two days before the big deadline and Mr. Brennan can't sit down. Photo—Lulis

Relieving his stress through an odd facial expression is Jeff Wright. Photo—Lulis

Jen Abel smiles knowing that with a click of the “mouse” her story will be printed and complete. Photo—Lulis

Adding minor touches to a final layout are Rose, Michelle, and Nicole. Photo—Lulis

(Front Row) Jake Spurgeon, Jeff Wright, Michelle Cook, Shane Ailor, Rosalie Lulis, and Angela Berger. (Back Row) Jennifer Abel, Nicole Schmidt, Mr. Brennan, Barb Rostine, Christa Hernden, Bonnie Nantz, and Kristi Pykosz. Photo—Lulis

Sports are arguably the tie that binds small towns like Capac together. They attract members of the community to our schools, and familiarize them with our teenagers. This was especially true this year because of the success of all of our sports teams.

One of the biggest surprises of the year was a reintroduction of a wrestling squad to the winter sports line-up. Coached by Mr. Bartels, the team did very well. At one time, Senior Phil Delisi was ranked fourth in the area. The rest of the team also made great strides. Look for even better teams in the near future as most of the team was made up of underclassman.

Another success story was the winning ways of our Varsity boys basketball. They earned lots of respect from STA counterparts and local critics as well. A 7-0 start to begin their season set them on a pace to have a terrific year. Stars like Matt and Brian Murray were responsible for the tremendous turnouts at home and away games.

Equally as exciting to watch this year were our Lady Chiefs. Large attendance can be attributed to a wonderful season that took the team just a few points shy of the top. Congratulations to all of the ladies who contributed to the teams good fortune. The highlight of the year for some was the trip to The Palace to play on the Pistons home court. Here are some of the reactions:

" Definitely a game to remember, especially since I walked right into Lindsey Hunter and almost fell over."  
Brandi Wilcox

" Playing at The Palace was a fun and exciting experience for the team and I."

Celeste Blumrich

Our Varsity boys golf team also had great success this year. They managed to take the STA, under the leadership of Coach Young. Brian Murray was named to the first team STA.

For those who want to get involved, Go for it! Get involved, talk to the coaches. Be a part the new winning tradition at Capac. Do *Something Athletic*.

Who's number 1?

The Capac Golf team home had a terrific season. Finishing with an unmarked record leading to an STA championship. (Mr. Young stated that he is proud of his accomplishments, as well as the teams. This is a great bunch of Gentlemen. They really deserved winning their division, and taking a STA championship title.) Brian Murray led the chiefs with his capability and leadership. Mr. Young has a great feeling about next years golf team.

# SOMETHING DISTANT

## Capac Cross Country

Running up and down hills, striving to reach the finish, come rain or shine . . . is Capac's cross country team. BANG! The gun goes off as you and fifty other people dash off on a five kilometer run. Sprinting to get ahead of the pack and then pacing

yourself for a three mile run. Cross country takes endurance, agility, and dedication. This year's team finished sixth at regionals and both boy's and girl's placed individually and medaled at various meets throughout the year. The boy's team did

great at the Reese Invitational placing third. Both Frank Rivard and Amanda Dixon went on to state competition. Frank placed 52nd at state and Amanda placed 61st. This year's team certainly ran to their fullest potential.

Smile Matt, you're almost there.

# Something Bold

## Varsity Football

This year's football team experienced what they called a "New Beginning". This year's 96-97 Varsity Football Team did something that had not been done in a very long time. They beat New Haven 25-20 during our Homecoming game. They ended their season with a second win against Peck.

This year's team has something to be proud of, they proved that with a new coach, a new attitude, and desire we can take on anyone on and off the field. Although the season did not end on a winning record the team earned respect from the entire community. The people who had given up on our Varsity squad were showing up for every game to see what the outcome would be. This and many other moments, kept the spirits of Capac at a maximum level.

Winning is not the biggest part of life, it's only a small insignificant part that's blown out of proportion. What the people of community have to realize is that the biggest part is the amount of strength and determination that is put forth every time the team steps on the field. Furthermore you must turn over a new leaf to start a new beginning.

First row: Matt Murray, James Prowlany, Adam Nettnay, Tommy Abel, Karl Rische, Jeff Wright, Nick Antonelli, Coach Bartels. Second row: Coach Simms, Chris Jagelewski, Ken Brown, Tim Frostik, Jeremy Tice, Jeremy Lewis, Paul Kaminski, Matt Keskimaki, Leah Burns, Emily Knox. Fourth row: Coach Baker, John Kowalewski, Nathan Creech, Paul Camire, Mark Wesch, Larry Adams, Mario Rameriz, Dave Kolaczynski, Jeff Senkow, Madaline Lowell, Coach Glennie. Photo—Marriens

This season was a great success and a big step in our "New Beginning". The guys worked hard and have laid the ground work for a very successful future. Our win against New Haven showed the heart and character of these young men. Don't leave town next Fall on Friday nights . . . there's more to come! Photo—Abel

# Something Peppy

## Varsity Cheerleading

Cheerleading, What does that mean to you? Maybe spirit, fun. Cheerleading is not all fun and games. There is a lot of hard work and dedication.

This year the varsity cheer team set up homecoming along with learning all their cheers and a dance. They had a good time.

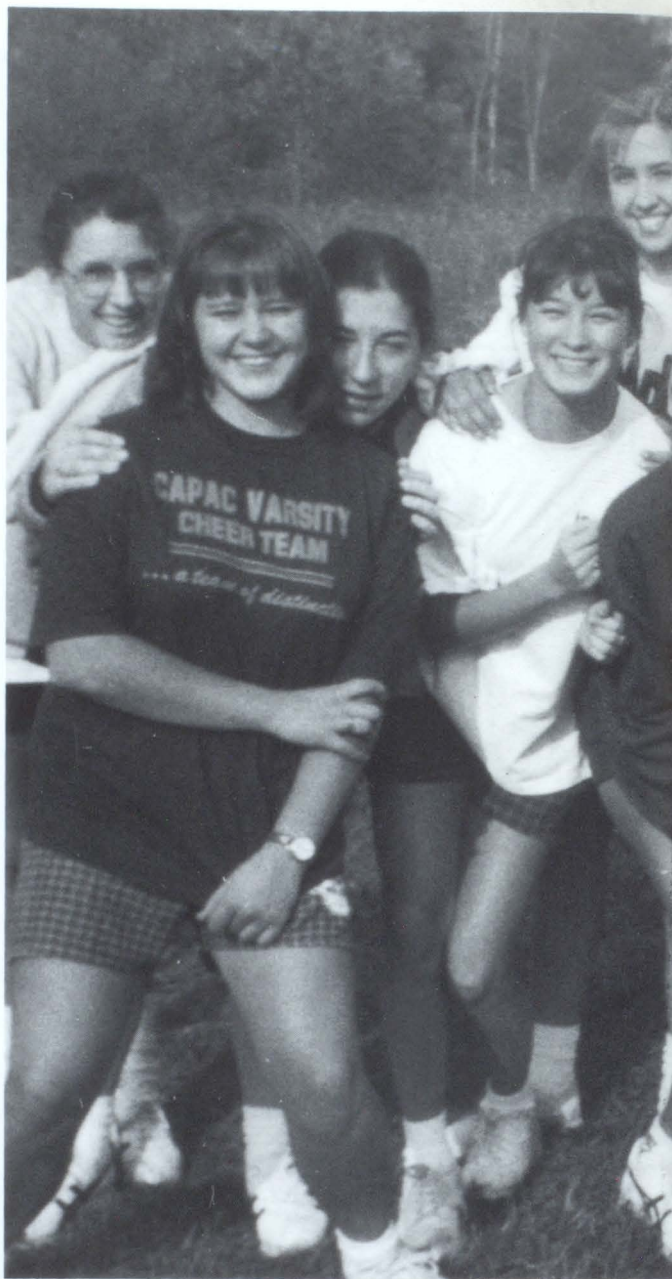

All the girls stuck together through everything they did. If one got in trouble, they all did. We were a team and we acted just as a team should. This was the last time all these girls would cheer together. The team had a fun time together. The next season most of the team is going a different way. Some are working and others just don't want to join again.

As looking back on this season it was one of the best for them. With the football team winning two games it made the season even better.

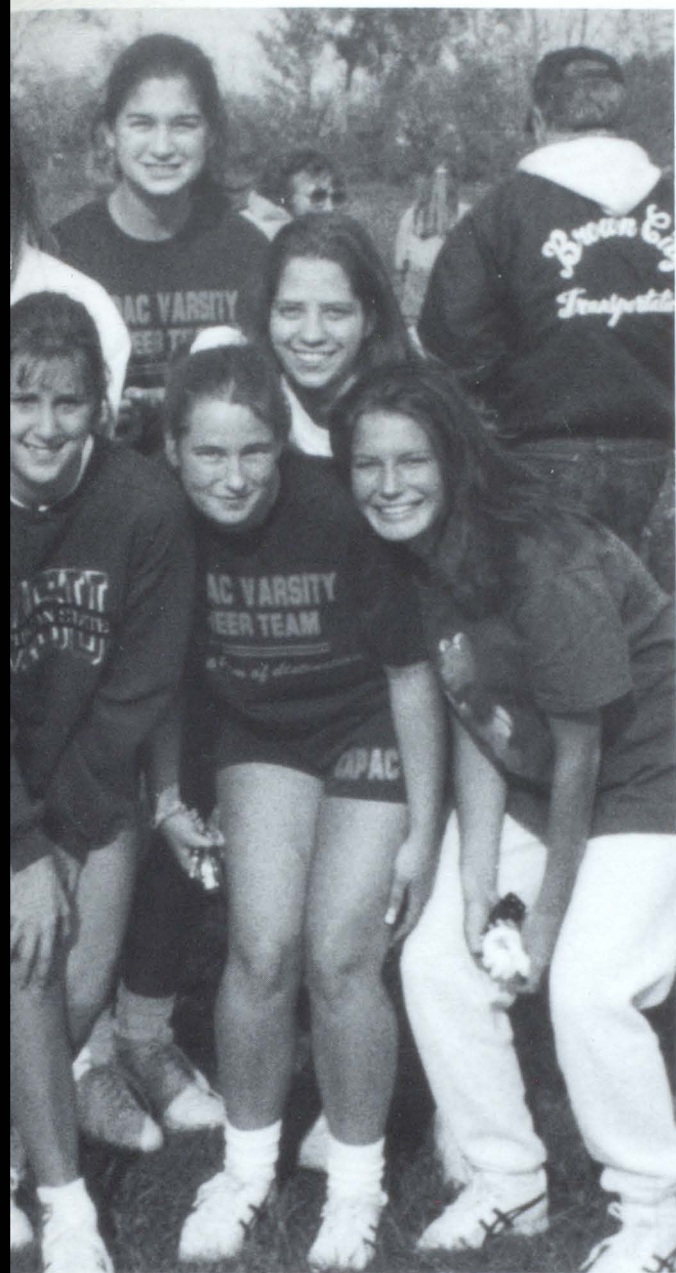

Who are these girls, just Bonnie Nantz and Kim Rummler having a great time at cheerleading camp! Photo—Kozak

# SOMETHING NEW

## JV FOOTBALL

This year signaled a New Beginning for the J.V. Football team. With eight years of coaching Football under his belt, head coach Mike Glennie kept their spirit alive, with a record of 5-4 for the year through the hard work into the hot summer days, to the cold nights of Thursday the J.V. Football team kept the flame alive.

Through the blocking, tackling, and executing, we were able to achieve our goals. With a strong performance from Capac's starting quarterback Marty Miller, who had time to throw and hand the ball to starting running back Justin Gressel. Capac's defense helped take some of the stress off their offense by the outstanding performance of Andy Wattney, the chiefs starting free safety. Starting defense and Chad Lietz also contributed. All these young talented players are the future for the Capac chiefs.

"Our Junior Varsity team had a great season finishing with strong wins against Almont and Kingston. Both teams had their Varsity Programs in the play-offs. They have had to learn the basics of a new Offense, Defense, and kicking game and have set a solid foundation for next season."

First row: Coach Baker, John Grzyb, Mark Mandeville, Charlie Reeves, Brandon Krotak, Adam Wattney, Justin Gressel, Aaron Guigar, Rich Rowe, Bobby May, Madaline Lowell, Coach Bartels. Second Row: Coach Simmons, Bob Craig, A.J. Hunt, Justin Whitehead, Bobby Cox, Justin Ambrose, Jesse Klocke, Mike Slattery, Mike Missner, Tony Martin, Coach Glennie. Third Row: Emily Knox, Frank Johnston, James Daugherty, Chad Lietz, Josh Vanvas, Jeff Behrick, Marty Miller, "Rudy" Roy Davis, Leah Burns.

# Something Undefeated

## Junior High Football

Pride and determination are just a couple of the many assets this year's Junior High Football team possessed. This year's team has difinitely brought pride to the name of Capac. Through skillful playing and excellent coaching, this year's team has achieved a totally undefeated season.

Way to go, guys! Combining an unstoppable offense with a solid defense was the key to this teams success. Along with a great record, the players also learned sportsmanship. We had a lot of good athletes, who with determination and desire, can become excellent varsity players.

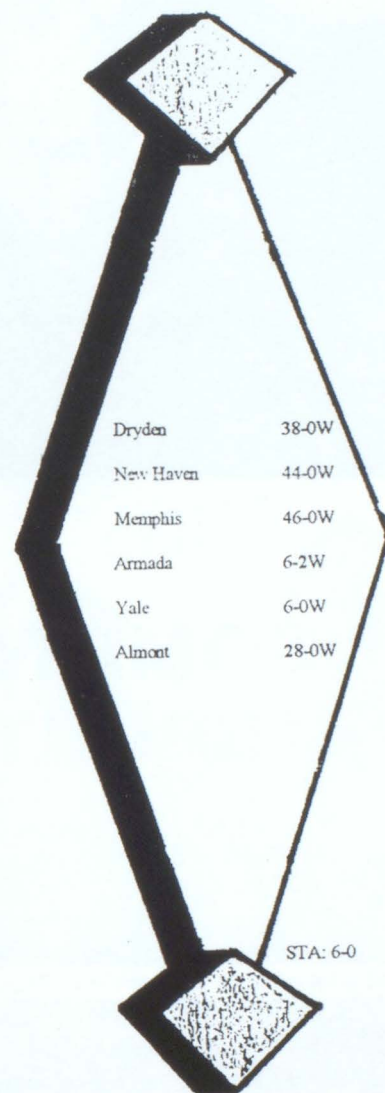

Like one of my favorite country songs says, "We went out in a Blaze of Glory"—Coach Smith

## SOMETHING SPIRITED

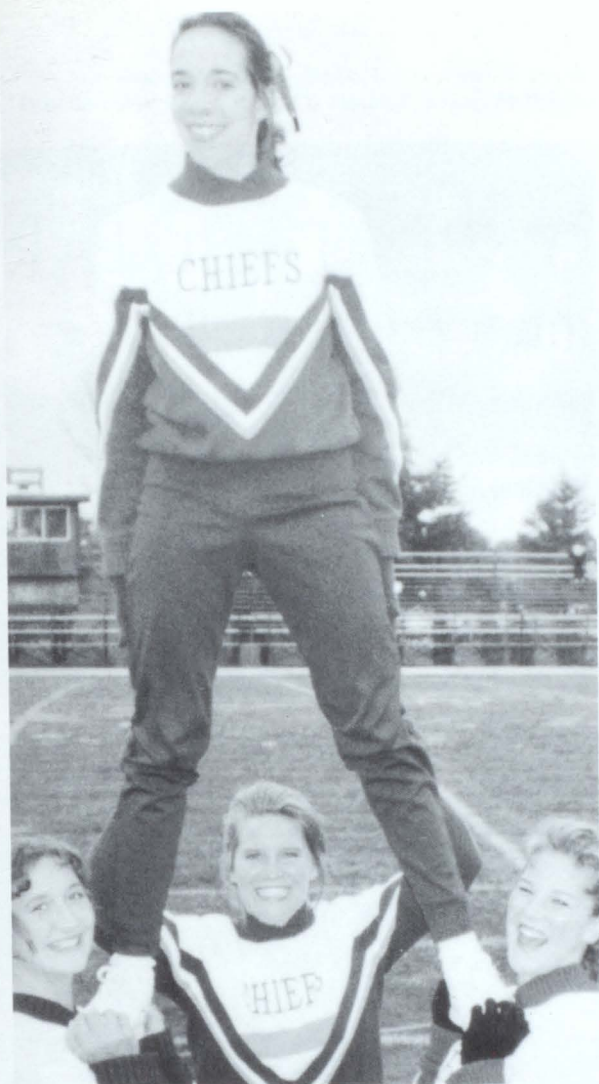

### J.V. And Eighth Grade

Cheerleading really is harder than it looks. It takes hard work, determination and most of all spirit from within. This years J.V. definitely showed our school what hard work, determination, and a lot of spirit can turn into. They performed their dance at the homecoming pep assembly. Not to mention the night before all the cheerleaders spent the night in the school to decorate the halls and the gym for the homecoming day. The J.V. cheer team held a clinic for all ages to come and learn skills. It was a great turnout. In order to accomplish what these two cheer teams have, they had hours of practice. Practicing every move until everyone has perfected each and every move. Also something these girls had going for them is their out going personalities; which is definitely needed to be a cheerleader. Being a good athlete isn't the only thing expected when you make the squad. Being an outgoing and friendly individual is expected. All in all when you think of a cheerleader you should think of a good representative of your school and most of importantly someone who knows how to bring out the spirit in all.

## SOMETHING SPECTACULAR

### Lady Chief Basketball

This year's Lady Chiefs had a phenomenal season. They finished 16-4 overall and managed to beat everyone in the STA at least once, proving that the Lady Chiefs wouldn't fall easily.

With seniors, Darci, Celeste, Erica, "Shooter" Sutherland, and the rest of the underclass line up, the chiefs started off slow with a loss to Kingston. Then the

mighty chiefs hit a seven game winning streak to boost them into the race for the STA championship and set a pace for the rest of the season. With only three additional losses, the Lady Chiefs ended a respectable season overall with eighteen wins and five losses. This led them into district finals and they took second in the STA.

"Our team got along really well and played well together. We had a lot of team unity. I think being a close team helped us to do as well as we did," said senior player Celeste Blumerich. That's what it takes, team unity. That; along with heart, dedication, and a lot of tough practices makes a winning team.

Overall: 18-5

“This year’s team accomplished more than was expected of them. The season predictions of third and fourth was not indicative of the determination and heart of all eleven players. They can be proud of their 18 wins and the runner-up finish they achieved.”

# Something Spiking

## *Goin' In For The Kill*

Bumping, setting and spiking may look easier than they really are, especially with this year's team. Yet, it is very complicated. All six players on the floor must be in tune with one another. The teammates and the coach on the bench have been concentrating on their moves and on the ball in order to keep winning game after game.

As yet another year progresses, the Capac Junior Varsity Volleyball Team's season comes to a close. No sport or athletic event requires more team-work and cooperation than volleyball. A lot of hard work and time has been dedicated by this year's players. You

may have caught a glimpse of an occasional smile or two (well, what did you think, it was all work and no play?) but, these girl's have worked hard at their team-work and efforts. They have proved they have the ability to succeed, no matter how much sweat and pain they must go through in practices in order to win. They are pumped up, full of energy and confident, there is no doubt that Coach Dave Young is proud of the whole team.

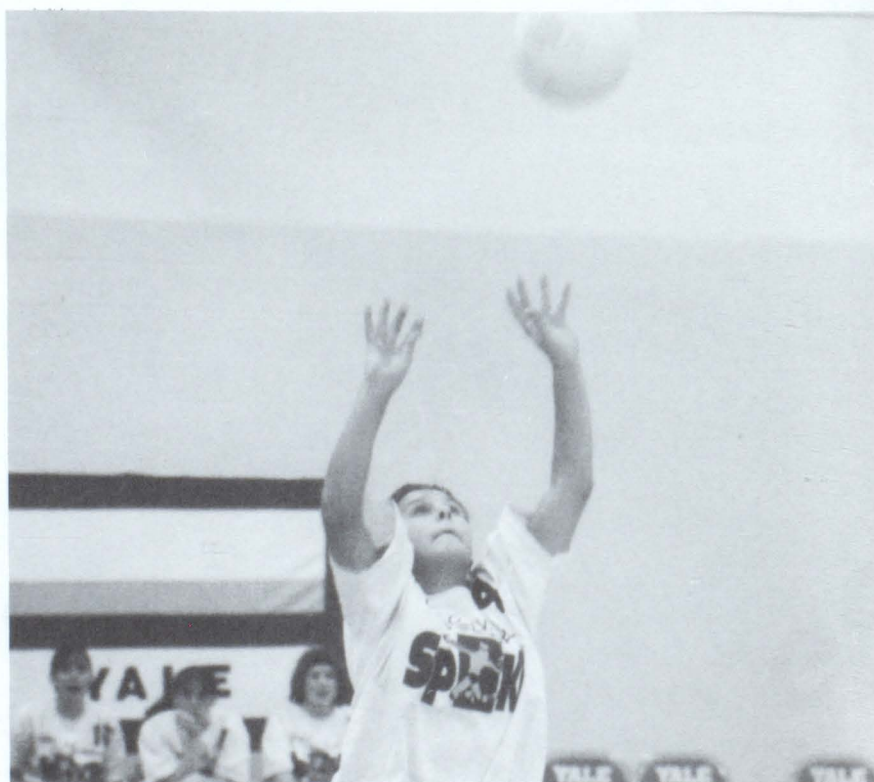

When the cheer of the crowd, thud of a spiked ball and the occasional yell of "mine" all come to a close, the feeling of loneliness, with a glint of proudness, comes over all the players.

"I got this one, year—no problem," thinks Brenda Camire as their teammates watch in awe. Photo Credit—Marions

## SOMETHING “KILLED”

### VARSITY VOLLEYBALL

The Varsity Volleyball team has started off this season with a new coach, David Young. Despite the youth of the team, they did all that was expected of them and more. Like in many other sports, you can't play a season of volleyball then set it down. Therefore, demands increased on the girls to work harder not only during the season but during the off season as well.

The Varsity Volleyball team huddles to discuss strategies. Then a selected few prepare once again to face their worthy opponent. The ball is served and glides, with great precision, over the net. The served ball hits the floor, echoing throughout the gym. The final point is for Capac and clinches another victory for the varsity volleyball team. As senior Catlin Quain said, this season was full of wins and celebrations.

“The team’s hard work and dedication has led to a successful season. We have learned that together we win and grow as a team.”

Coach Young

Sharon Thacker, Crystal Clark, Rebecca Bufton, Caitlin Quain, Leah Cassisi, Julie Morency, Amy Palmateer, Brandi Wilcox, Celesta Blumerich, Laura Czeszewski, Christine Quandt, Jennifer Young, Coach Young, and Stephine Thacker.

# Something Hoopy

We all start somewhere in our basketball career. For our junior and junior high varsity girls basketball teams, this is where it starts. The seasons were pretty good for both of them. A lot of hard work and determination was put into the seasons. Whether it's from the symbolic Nike wear of the JV team or the eighth grade learning of how to play, each team had its own special way. The efforts put forth by all the girls was outstanding. They strived to score as many points as possible. They are almost guaranteed to have a great future.

# SOMETHING REVERED

After having a good preseason, the Capac Varsity Boys Basketball team began to play like winners. Even though their overall record was 11-7 at press time, the Chiefs improved greatly over the season. With only five returnees: Mark Remenap, Karl Rische, Brian Murray, Matt Keskimaki, and Matt Hill, Coach Topie had a tough task of rebuilding ahead of him. After last years mediocre year, the Chiefs needed some encouragement. The coach and community responded with spirited support.

With the help of senior Matt Hill, juniors Matt Murray, Brandon Vyt, Nile McGeorge, and Tommy Abel, they posted a 6-7 record in STA action.

Coach Topie commented "These young men have worked hard everyday and have improved with every game. Their success can't be judged as wins and losses. They learned what a positive attitude can accomplish. This season has provided a good foundation for the start of a successful program."

## SOMETHING REMARKABLE

### *J.V. Boy's Basketball*

The swish of the net, the sound of the buzzer, it is another victory for the Chiefs. The junior varsity boy's basketball team consists of twelve sophomores. The team started out a little shaky trying to learn a new offense and new plays. It took a few weeks of hard work and determination to make it all come together.

Jeremy Tice, the leading scorer, set the team offensively. Rebounders Jesse Klocke and Shane Ailor secured the team with defensive rebounds. This set the Chiefs off to a rewarding season. "We've worked real hard this year and we should win the rest of our games," said sophomore player Shane Ailor. The J.V. boy's basketball team has worked very hard this year, and along with the help of coach Brennan, they should make excellent varsity players next year.

## SOMETHING EXHAUSTING COMPETITIVE CHEER

The varsity cheerleaders work very hard to learn their competition cheers and get ready for a hard season. With only four returning varsity cheerleaders, the team had a lot of hard work in front of them.

Two to three hours are put in everyday. Every practice you wonder how you can improve and what new things you can do to get the crowd motivated. Time is spent perfecting voices, stunts, and cheers.

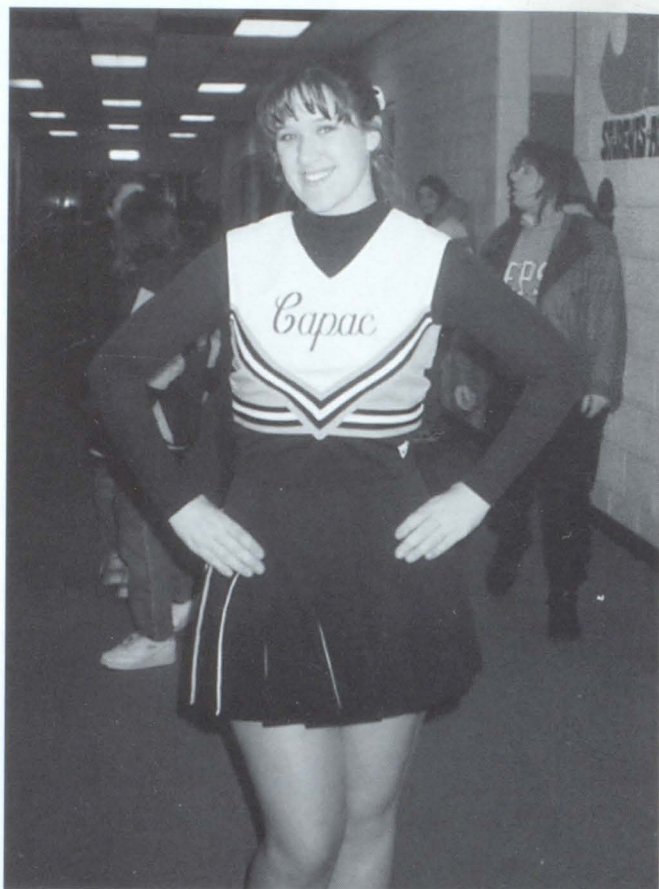

Cheerleaders need to be able to deal with pressure and remain enthusiastic even when things are down. A good cheerleader needs to have unending determination because she is showing others the importance of never giving up.

What do you think about your season? A cheerleading season is very exhausting and time consuming. Our team tries to stick together and do the best we can.

# SOMETHING SOARING

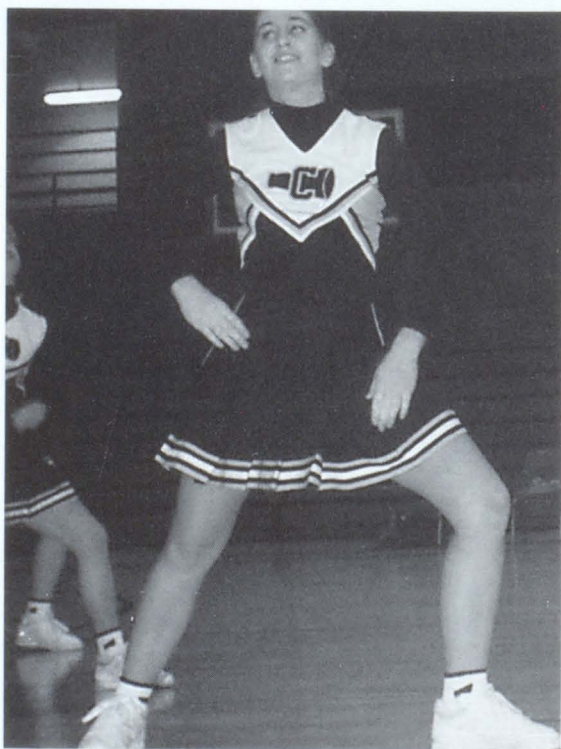

## J.V. BASKETBALL CHEERLEADERS

In sports, the closest fan is a cheerleader. Cheerleaders get to see the action up close and while it's happening. Some students may think that it doesn't take a lot to be a cheerleader. However, most cheerleaders do a lot to support the team. They go to all the games and root the players on. They make up cheers for the team, and the cheerleaders usually prepare a dance routine. Cheerleading is a great sport, but it has its down side also. Sophomore Gayle Chupa said, "The part I like least about cheerleading is the practice and when some people say cheerleaders are lazy and don't do anything. But that's not true. We work just as hard as the guys do." Let's all take time and appreciate the cheerleaders for what they bring to a game.

# SOMETHING SWOOSH

## *Eighth Grade and Freshmen Basketball*

Hard work dedication sum up this year's eighth grade and freshman basketball team. Working hard at practice, the Chiefs worked on winning and during the games they never quit no matter what the score. Each team excelled in their team work and supported each other. In doing this they never let the hopes down. They may be young this season but next year they will be tough. No matter if they won or lost they keep coming back. These ath-

letes have done a fine job, and they know they have to keep up the good work for next year. Their futures look very bright, these are the players to be watching through the years to come. Basketball takes a lot of energy and willingness to play your best. Everyone on these teams gave it their all and showed us how strong of a team we will have in the future. Watch out JV and Varsity coaches, these are your players of tomorrow.

# SOMETHING JUST BEGINNING

## JR. HIGH AND FRESHMEN CHEERLEADING

Cheerleading, to most people is not considered a sport. But, ask any cheerleader or coach and they will tell you that being a good cheerleader takes many hours of practice and determination. The eighth and ninth grade cheerleaders have dedicated themselves to be a quality squad. They have practiced every day after school, and also put in extra time to make posters to get the school involved. Along with practicing every day and cheering at games the cheerleaders have also taken part in a competition. In order to compete, the cheerleaders were required to learn one sideline cheer and one half-time cheer. Our ninth grade squad brought pride to the chief's name, by placing third in the competition. Cheerleading takes hard work and dedication, and the eighth and ninth grade cheerleaders have shown that they have what it takes.

# SOMETHING PINNING

## 97 Wrestling: They're Back

Basically, a wrestling match is two opponents in the same weight class each trying to pin the other's shoulders to the mat in the course of three two-minute periods. If one pins the other, he automatically wins the match. However, if neither pins the other, the winner is determined by points. Points are awarded by the referee for near-fall, reversals, takedowns, and escapes made throughout the match. A player may win by either accumulating fifteen points or by having more points at the end of the

match. They're back with power, determination and willingness to make 1997 the beginning of a new era for Capac wrestling. Wrestling takes so much energy that when you're done you can tell how hard your match was by how tired and sore you are. Even though a full match is only six minutes long there is nothing else comparable to it. The 1997 wrestlers and coaches all deserve congratulations on a job well done and we all will be waiting eagerly to see how well the team will do next year.

# Athletic Booster Club

## The ABC of Sports.

Don't Quit  
When things go wrong as they  
sometimes will,  
When the road you're trudging seems  
all up hill,  
When the funds are low and the  
debts are high,  
And you want to smile, but you  
have to sigh,  
When care is pressing you down  
a bit,  
Rest, if you must—but don't  
you quit.

Brian,

Over the years we have watched you grow from a beautiful little boy into a beautiful young man. We are so proud of you and all of your accomplishments. As you graduate and go forth into adulthood, remember to reach for the stars, believe in yourself, and know that your family will love you forever.

Congratulations,  
Mom, Dad, Matt, and Nic

Krystal,

When you finished first grade, your school held you back. As a single parent, I was unsure how to react. Going into the sixth grade, you were the tallest at school. Enjoying most sports, it became your best tool. The last six at Capac know you zoom through the twelfth. A young woman with ambition who cares about her health. Congratulations my Krystal! Now the future is yours: So just set your goals high and you will open the doors.

Love Forever,  
Dad

Marcie,

Congratulations! Your entire family is proud of you. My little girl is all grown up. We know whatever you choose in life you will succeed, and no matter what we will always be here for you! The Lord be with you always.

Love,

Dad, Mom, Sido,  
Sonia, Billy and Brittany

Beth,

As the time nears for you to step out into the world to make your mark on life, we can't help but remember the days gone by and all the joy and laughter you have brought to us! It's hard to believe that this part of your life is over and a new part is to begin! What won't be hard to believe is that whatever you attempt in life you will accomplish! To say the least, we are very proud of you!!

With all our love,  
Dad, Mom, Amie, and Mike

### Garrett & Joe

So as you go to find yourself, don't  
look too hard.

You may pass yourself by . . .  
reaching too high

wanting the other side of life.

And as you go to take your place,  
don't run too fast.

Just pretend there's no end . . . make  
yourself last

till the other side of life.

One day you'll find your restless  
searching at an end . . .

You'll think the world has changed,  
but it's just you, my friend.

So as you go to please your heart,  
please take your time.

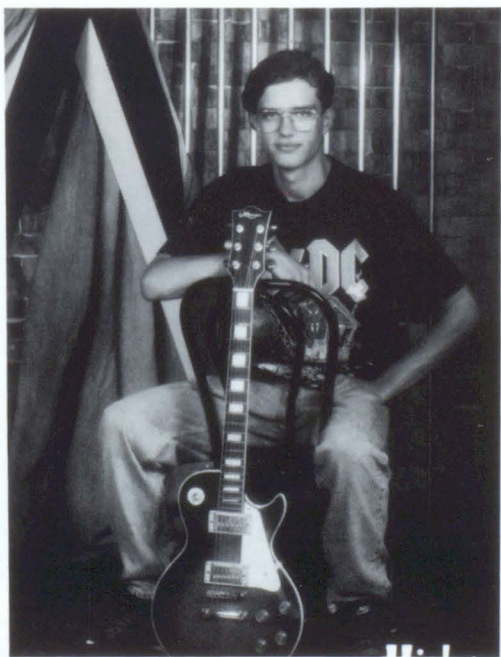

Someone's waiting there, too . . .  
waiting for you

on the other side of life.

She's waiting for you . . . on the other  
side of life.

D.Gates/Bread

With much love,  
your parents' and families

Tony,  
Good job, Tony! Know that we are proud of you and love you always!  
Love,  
Mom, Dad and Sarah

Bethany,

You're so independent and confident of your goals that we are  
also confident of you. You've never let us intercede for you in any  
situation, but know always that we will be there for you, as you  
continue your education. Congratulations!

Love,  
Mom, Dad, Cecilia and Melissa

Dear Stephanie,

We're so very proud of you. Thank you for being such a loving and caring daughter. Congratulations and may God Bless you.

Love Always,  
Mom, Elden,  
Shelly, John, Kurt  
Kent and Kris

Dearest Jessica,

It has been a long and bumpy road, but you made it. You have grown up into a beautiful young lady. God Bless You in everything that you do. We love you with all our hearts.

Love,  
Mom, Dad and Andy

Tracey,

Our angel is graduating! We are so proud of you. With your knowledge and ambition to learn more, we know you will take hold of everything life has to offer you. We love you dearly.

Love,  
Dad, Mom, Josh and Jessica

Congratulations Becky!

We are very proud of you. We have watched you develop into a strong, independent young lady. You set goals early on and worked very hard to accomplish those and so much more. As you leave all of the great memories of High School behind and enter the exciting years of college at Michigan State, we will give you all of the independence and support you need to continue toward your goals. The future is yours to do whatever you choose.

All our Love,  
Mom, Dad and Tim

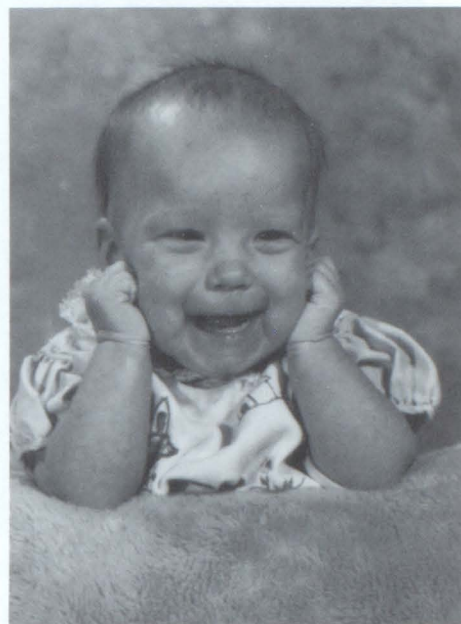

Amy,

Congratulations! May each stage of your life continue to bring you happiness and fulfillment—as you have brought great joy to ours.

Love,  
Mom and Dad

Our Dearest Carol,

It seems like yesterday that your sweet little face shined in that nursery window. We were so proud!

Today you will shine for all the achievements you have made.

We are so proud of you! May the future be good to you. We wish you only the Best. You'll always be our little girl.

Love,  
Mom and Dad  
Angela and Matthew

Dear Aimee,

We have watched you grow into a strong, young woman. Your courage and perseverance is amazing. You have enhanced our lives in so many ways that no family could be prouder. P.s. "You are?!" Always use your powers for good . . .

Love Ya,  
Your Family

Mark,

At 6'4", you are still the baby of the family. Congratulations! We are very proud of you and love you very much.

Love,  
Mom, Paul, John, Ron and Kelley

Dear Mark,

You've always been one of a kind in our eyes. You continue to amaze us with all your accomplishments. Best wishes always.

Love,

Grandma Dot and Norton

Mark,

Every job is a self portrait of the person who did it. Mark—Your portrait is still in progress as that Renaissance Man.

Love and Support,  
Mom, Dad and Jodi

David,

Your presence is a present to the world. You are unique and one of a kind. You walked into our lives and left footprints on our hearts. Never forget . . . for even a day . . . how very special you are to us!

All Our Love Forever,  
Mom, Dad, Maria and Angela

Bill,

Congratulations! We are all very proud of you. We hope you achieve all your goals. Best of luck for a successful future.

We Love You,  
Jill, Brian, Ben, Brandon and Blake

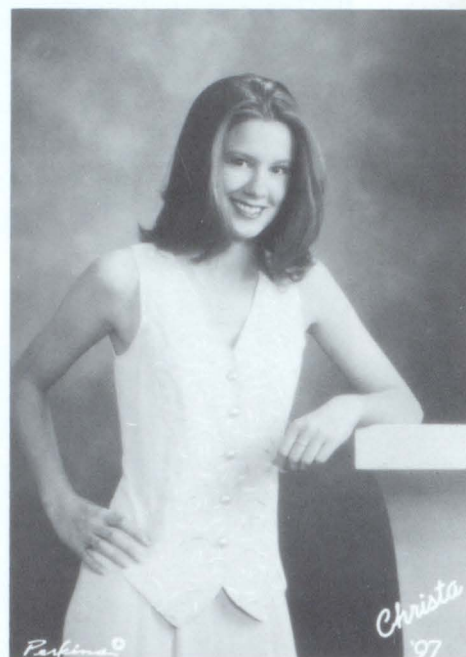

Darci,

You should be extremely proud of all your accomplishments. You have a special way about you which brings a smile to all the people you come in contact with. We are very proud of you Darci!

Love,  
Mom, Dad and Traci

Christa,

18 years ago we were blessed with a precious little girl and in those 18 years we've watched her grow into a beautiful, intelligent young lady. Words can't describe our love for you and the pride and joy you've given your family. Always listen to the heart God gave you.

Forever, Mom & Dad, Lisa, Lynnette and David

Congratulations Nikki!  
Love, Mom & Dad, Brothers & Sisters, Nieces  
& Nephews!

Congratulations Jen,  
 You have made us so proud.  
 Love,  
 Mom, Dad, Grandpa, Tommy and Patrick

Caitlin,  
 May all your skies be blue ones. May all your dreams be seen. May  
 all your friends be true ones, and all your joys complete. May happiness  
 and laughter fill all your days for you today and ever after. May all  
 your dreams come true.  
 Love,  
 Mom

Paul,  
 Since the day you were born, you were blessed with a wonderful sense  
 of humor which has built great character. Whether you are hunting for wild  
 game or hunting for your career, we are sure you will track down the dreams  
 and goals in your life.

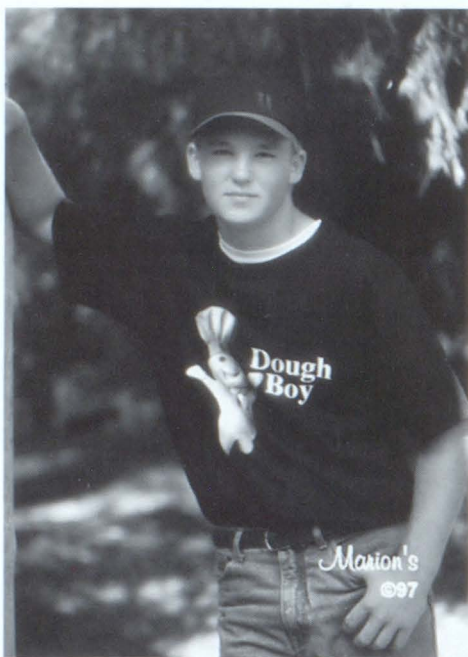

We Love You,  
 Mom, Dad, John, Teresa and Naoki

Congratulations Matt!  
 Good Luck at state!!

Love, Dad and Susan

Ryan,

Seems like only yesterday when you were born. We have indeed had so much fun watching, guiding and sharing in your life as you have grown to be a fine courageous young man. Thank you for being you and sharing yourself with us. Always keep your great sense of humor and joy and love for life. Never lose sight of your goals and dreams. If you can conceive it and believe in it, you will achieve it. May our love and respect for you and your strong faith in the Lord, guide and direct your life in the many years to come.

Congratulations! We love you always and forever. God Bless  
Mom, Dad, and Sean

Audree—You learned as a young girl through your giggling smiles to go after what you want. Things just never stand in your way for long. You've always worked hard for all your grades as well as your other great accomplishments through many programs. Things look so easy for you, but we all know hard work and confidence has gotten you where you are. You're on your way to making a great future for yourself.

Love,

Mom and Bill, Grandma and Grandpa Boulter

Juliene—Thinking back you were a shy young girl. You were always looking out for everyone else and always wanting to be a care taker of all the people in your life. You have really learned to take care of yourself and your future. You've worked so hard to get truly well earned grades. With the tight schedule you've always upheld to get where you are, we all know you can have and do all you'll ever dream for.

Love,

Mom and Bill, Grandma and Grandpa Boulter

Jen,

Being the FIRST has not been easy. The FIRST to go to school, to start dating, to drive and now, to graduate. Although, the time has come to cut the strings and let you go off on your own, we hope you don't mind if we hold on to a few threads, just in case you ever needs us. Congratulations!

All of our Love,

Dad, Mom, Jes, Steve and Dusty too!

Jake,

When you were born, we gave you a name that meant "Just and Upright." You have certainly lived up to your name. We are so proud of you and all of your accomplishments. We wish you as much happiness in life as you have given us . . .

Love,

Mom and Dad

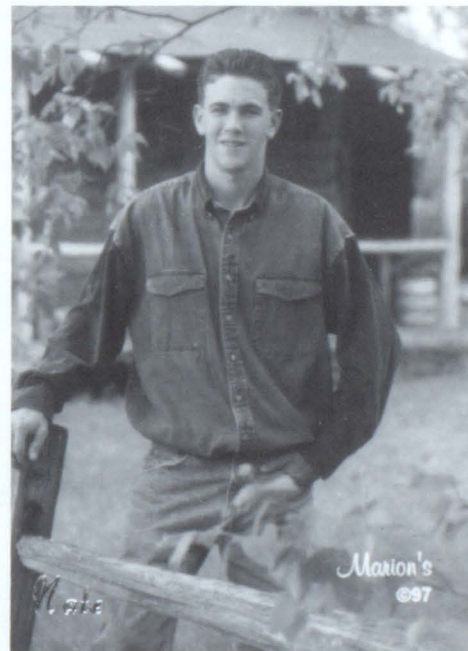

Celeste,

We're extremely proud of you! You have brought so much joy and happy memories into our lives. You have always worked really hard to achieve your goals. Continue with this same effort in life, you will go far. We love you very much and wish you much success in your exciting future endeavors.

Love,

Mom, Dad and Crystal

Nate,

From the little guy who was the sunlight in your parent's eyes, to the fine young man ready to reach for the sky. Keep your drafting straight and draw a line toward your future. Set your goals high and do your very best. We will always stand behind you and be very proud of you.

We Love You Very Much,

Mom and Dad

Beth,

Congratulations on all your successes, and accomplishments. You have achieved great things through your hard work and determination. You can be so proud of yourself. We couldn't be more proud of you! You have brought to us and those around you much joy with your wonderful smile and great personality. You will go as far as your dreams will take you. You have never been afraid to try anything. The world awaits you. Keep God in your life and you will never be alone. We are always here for you.

All our love,

Mom, Dad, Cadi and Dana

Nicole,

Good luck with all your future plans, college and accomplishments. We have courage in you that you will achieve whatever you set out to do. Set your goals high and you will reach the stars. Remember, wherever you venture, wherever your goals take you, we will always be here for you.

Love,

Mom, Dad and Ricky

# Something Presidential

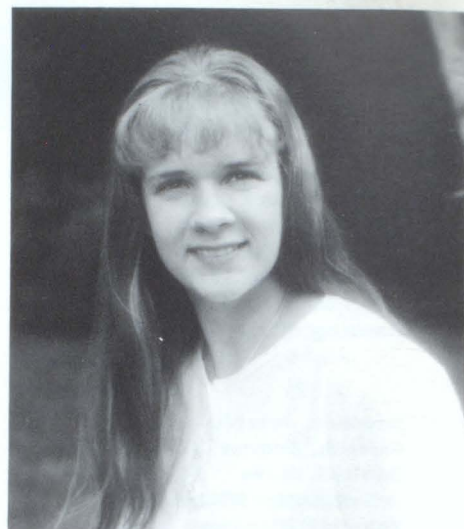

Finally, after four long years . . .

Hard work and dedication has paid off for the top ten graduating individuals of 1997. This year, the senior class honors two valedictorians; Celeste Blumerich and Brandy Kettlewell. Celeste and Brandy do not mind sharing the spotlight, they

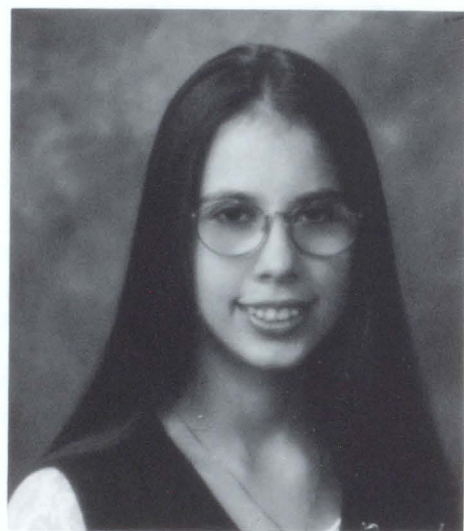

agreed the more people tied for the number one position in a graduating class the better. Some of the top students were accepted to the University of their choice in the later months of 1996, and all have plans to attend a college or University after graduating.

IT'S BEEN WILD!!

VALEDICTORIAN: Celeste Blumerich

VALEDICTORIAN: Brandy Kettlewell

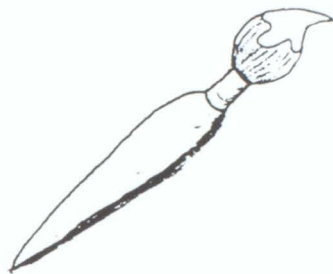

SALUTATORIAN: Mark Remenap

## Class Officers

President: Amy Palmateer  
Vice President: Jake Spurgeon  
Secretary: Maria Govaere  
Treasurer: Beth Potter

## Class Colors

Burgundy and Black

## Class Flower

Black Tipped Red Rose

## Class Song

It's The End of The World- R.E.M.

## Class Motto

*And these children that you spit on as they try to change their world are immune to your consultations*

*They're quite aware of what they're going through- David Bowie*

# We're Outta' Here!
